

# BARREL BEDDING TOOL - 1 1/8" BARREL BEDDING TOOL

[Gunsmith Tools & Supplies](#) > [Stock Work & Finishing](#) > [Stock Making Hand Tools](#) > [Barrel Channel Cutting Tools](#)

## Full Control Of Cutting Head At All Times With All Cuts

Perfect, chatter-free cut, shaves out excess wood, leaves barrel channel smooth and ready for barrel without gouging, rasping or final sanding. Cushioned-cutter design keeps hardened steel cutter discs at correct angle to remove wood without "digging in" regardless of amount of pressure. A favorite with pros.

# Safety Instruction Guide for BARREL BEDDING TOOL 1 1/8"

## Introduction

Thank you for choosing the BARREL BEDDING TOOL 1 1/8". This tool is designed for professional use, enabling precise and efficient bedding of barrels in a smooth and safe manner. To ensure the safety of users and compliance with the EU General Product Safety Regulation (GPSR), please read this safety instruction guide carefully before using the product.

## General Safety Guidelines

- Always use the tool as intended and according to the instructions provided.
- Ensure that the workspace is clean, welllit, and free from distractions.
- Keep the tool out of reach of children and unauthorized users.
- Regularly inspect the tool for any signs of damage or wear before each use.
- Use appropriate personal protective equipment (PPE), such as safety goggles and gloves, when operating the tool.
- If you experience any issues or accidents while using the tool, report them to the relevant authorities.

## Specific Safety Precautions for Use

- **Hazard Identification:**

- The tool may have sharp edges and moving parts that can cause injury.
- There is a risk of wood splinters and debris during operation.
- Improper use may lead to tool malfunction or personal injury.

- **Avoiding Hazards:**

- Always maintain a firm grip on the tool while in use.
- Do not apply excessive force, as this can lead to tool damage and personal injury.
- Ensure that the cutter discs are securely attached before use.
- Keep hands and other body parts away from the cutting area during operation.
- Use the tool only for its intended purpose—bedding barrels.

## Instructions for Installation and Usage

- **Installation:**

1. Select the appropriate cutter size for your project (1/8", 7/8", or 1" diameter).
2. Ensure that the cutter is clean and free from debris.
3. Attach the cutter securely to the tool according to the manufacturer's instructions.
4. Check that the cutter is positioned at the correct angle for optimal performance.

- **Usage:**

1. Position the tool over the barrel channel that needs bedding.
2. Apply even pressure while moving the tool along the channel to achieve a smooth cut.
3. Regularly check the cutting progress and adjust your grip as needed.
4. After use, clean the tool and store it in a safe, dry place.

## **Disposal Instructions**

- Dispose of the tool and any replacement cutters in accordance with local regulations.
- Do not dispose of the tool in regular household waste. Check for local recycling programs or hazardous waste disposal facilities.
- Ensure that the tool is rendered unusable before disposal to prevent accidents.

## **Contact Information for Further Support**

For any safety inquiries or additional support regarding the BARREL BEDDING TOOL 1 1/8", please refer to the manufacturer's contact information included with the product packaging or visit the manufacturer's website.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure a safe and effective experience with the BARREL BEDDING TOOL 1 1/8".
