

1911 LUG CUTTER COMPONENTS - BROWNELLS 1911 LUG CUTTER HANDLE W/0.186" CUTTER KIT

[Gunsmith Tools](#) > [Handgun Tools](#) > [Barrel Tools](#) > [Barrel Lug Tools](#)

A hand operated, carbide cutter easily trims excess material from the bottom barrel lug when fitting custom or factory barrels to 1911 autos. These cutters remove material from the barrel lugs in a parallel fashion, and with the correct height and radius, to help produce the best possible lockup. It is recommended to use the 0.186" cutter first, then progress to the 0.195" cutter if more material needs to be removed. Follow with careful hand fitting to achieve a firm, non-binding barrel-to-slide fit. Start small and check your work often. It is possible, with some slide/barrel combinations, that the 0.195" cutter could remove more material than necessary. Fits all 1911 Auto, Commander, Officer, single and double-stack frames. The 0.186" Lug Cutter, and 0.195" model are available with or without the handle. The handle is also available individually.

Attributes

- Name: [BROWNELLS 1911 LUG CUTTER HANDLE W/0.186" CUTTER KIT](#)

1911 Lug Cutter Components Safety Instruction Guide

Introduction

Thank you for choosing the 1911 Lug Cutter Components by Brownells. This guide provides important safety information and instructions to ensure the safe and effective use of this product. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose, which is to trim excess material from the bottom barrel lug of 1911 autos.
- Always wear appropriate personal protective equipment (PPE), including safety goggles and gloves, when using the cutter.
- Keep the workspace clean and organized to prevent accidents.
- Ensure that the product is kept out of reach of children and vulnerable individuals.
- Regularly inspect the cutter for any signs of wear or damage. Do not use if damaged.
- Report any unsafe conditions or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Before using the cutter, ensure that the barrel and slide are properly secured and stable.
- Use the 0.186" cutter first, as recommended, to avoid removing excess material.
- Progress to the 0.195" cutter only if necessary and with caution, as it may remove more material than intended.
- Start with small adjustments and frequently check your work to ensure a proper fit.
- Avoid applying excessive force when using the cutter to prevent damage to the product or the firearm.
- Do not use the cutter for any purpose other than intended, as this may pose safety risks.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and safety equipment.
- Ensure that the area is welllit and free from distractions.

2. Using the Cutter:

- Select the appropriate cutter size (0.186" or 0.195").
- Position the barrel lug securely in a vise or clamp to prevent movement during cutting.
- Align the cutter with the barrel lug and apply gentle pressure to begin cutting.
- Move the cutter in a parallel fashion, maintaining the correct height and radius.
- After cutting, check the fit frequently to ensure accuracy.

3. PostUse Care:

- Clean the cutter after use to remove any debris or residue.
- Store the cutter in a safe place, away from children and pets.

Disposal Instructions

- Dispose of the product in accordance with local regulations for hazardous materials.
- Do not throw the cutter in regular household waste if it is damaged or unsafe.
- Contact local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or additional information regarding the 1911 Lug Cutter Components, please refer to the contact details provided by the retailer or manufacturer.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure a safe and effective experience with your 1911 Lug Cutter Components.
