Safety Instruction Guide for #12 Buttplate Screws

Introduction

Thank you for choosing the #12 Buttplate Screws from Brownells. This guide provides essential safety instructions to ensure the safe use of this product. It is important to read and understand these instructions before using the screws to prevent any accidents or injuries.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in this guide.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling and installing screws.
- Keep the screws out of reach of children and vulnerable individuals to prevent accidental ingestion or injury.
- Regularly inspect the screws for any signs of damage or wear before use.
- In case of any accidents or unsafe conditions, report them to the relevant authorities immediately.
- Stay informed about recall updates on the EU's Safety Gate platform to ensure product safety.

Specific Safety Precautions for Use

- Use only the recommended tools for installation to avoid damaging the screws.
- Do not use the screws if they show signs of corrosion or other damage.
- Ensure that the surface where the screws are to be installed is clean and free of debris.
- Avoid overtightening the screws, as this may lead to breakage or damage to the material being secured.
- If using the screws in a highstress application, regularly check for tightness and integrity.

Instructions for Installation and Usage

1. Gather Tools and Materials:

- Screwdriver (appropriate size for #12 screws)
- Drill (if predrilling is required)
- Measuring tape
- Safety glasses and gloves

2. Preparation:

- Measure and mark the locations where the screws will be installed.
- If necessary, predrill holes to ensure proper alignment and to avoid splitting the material.

3. Installation:

- Align the screw with the predrilled hole or the marked location.
- Using the screwdriver, insert the screw into the hole and turn clockwise until it is securely fastened.
- Be careful not to overtighten, as this can damage the screw or the material.

4. PostInstallation Check:

- After installation, check that all screws are secure and that there are no visible signs of damage.
- If any screw appears loose, tighten it gently until secure.

Disposal Instructions

- Dispose of any unused or damaged screws in accordance with local regulations.
- Do not dispose of screws in general waste. Instead, recycle them if possible, or take them to a designated waste disposal facility.

Contact Information for Further Support

For further assistance or inquiries regarding the #12 Buttplate Screws, please refer to the manufacturer's website or customer support resources. Ensure that you have the product details handy when seeking assistance.

By following these safety instructions, you can ensure the safe and effective use of the #12 Buttplate Screws. Thank you for your attention to safety and compliance with the EU General Product Safety Regulation.
