

# SOCKET HEAD LONG BLANK SCREW - LG BLANK SCREW 20 PACK

[Gunsmith Tools & Supplies](#) > [Small Hardware](#) > [Metal Screws](#)

## Turn Your Own Custom Triggerguard Screws

Oversize head with 5/32" hex socket lets gunsmiths turn their own custom triggerguard screws. Longer length gives extra "reach" for custom bedding in oversize stocks. .250" diameter shaft is the correct size for threading to fit most modern military and commercial bolt actions.

# Safety Instruction Guide for SOCKET HEAD LONG BLANK SCREW LG BLANK SCREW 20 PACK

## Introduction

Thank you for choosing the SOCKET HEAD LONG BLANK SCREW LG BLANK SCREW 20 PACK. This guide provides important safety information to ensure the safe use and handling of this product. Please read and follow all instructions carefully to minimize risks and ensure proper usage.

## General Safety Guidelines

- Ensure that the product is used in accordance with the guidelines outlined in this document.
- Keep the product out of reach of children and vulnerable individuals who may not understand its potential hazards.
- Inspect the product for any damage or defects before use. Do not use if damaged.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform regularly.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), such as safety goggles and gloves, when handling and using screws.
- Ensure that the workspace is clean and welllit to prevent accidents.
- Avoid using excessive force when tightening screws to prevent stripping or breaking.
- Do not use the screws for applications they are not designed for, as this may lead to failure and potential injury.
- Keep fingers and other body parts clear of the screw entry point during installation to avoid pinching or injury.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools, including a 5/32" hex wrench.
- Ensure that the surface where the screw will be installed is clean and free of debris.

### 2. Installation:

- Align the screw with the predrilled hole in the desired material.
- Using the 5/32" hex wrench, turn the screw clockwise to begin threading it into the material.
- Apply steady pressure, ensuring the screw is inserted straight to avoid crossthreading.
- Continue tightening until the screw is secure, but avoid overtightening.

### 3. Usage:

- Use the installed screws only for their intended purpose.
- Regularly check the screws for tightness and integrity, especially if used in highstress applications.

## Disposal Instructions

- Dispose of any unused or damaged screws in accordance with local regulations.
- Do not dispose of screws in a manner that may cause harm to the environment or public safety.
- If you are unsure about disposal methods, consult local waste management authorities for guidance.

## **Contact Information for Further Support**

For any questions, concerns, or to report an unsafe product, please reach out to the appropriate authorities or consult the EU's Safety Gate platform for further assistance.

Thank you for your attention to safety and for choosing our product. Your safety is our priority.
