

FILLISTER HEAD SCREW KIT

[Gunsmith Tools & Supplies](#) > [Small Hardware](#) > [Metal Screws](#)

With this kit you can stop searching for those hard-to-find screws that are stocked by only a few specialized manufacturing supply houses . . . we have done the looking for you. You can have that “just right” screw right at your fingertips, in a handy, very complete kit . . . and at quite a substantial savings. The kit contains 12 each of the 20 popular size screws from No. 0 wire gauge to No. 12 wire gauge in long enough lengths to fit many difficult jobs, yet they can be cut off and fitted where a shorter length is required. Slotted head drive type. We strongly suggest that after the screws are cut and trimmed, they be dipped in OXPHO-BLUE to give them a blue color as well as prevent rusting which could otherwise ruin a fine job.

Safety Instruction Guide for FILLISTER HEAD SCREW KIT

Introduction

Thank you for choosing the FILLISTER HEAD SCREW KIT by BROWNELLS. This kit is designed to provide you with a variety of fillister head screws for your projects. To ensure safe and effective use of the product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always keep the kit out of reach of children.
- Inspect screws before use to ensure they are not damaged.
- Use screws only for their intended purpose.
- Do not exceed the recommended load limits for the screws.
- Store the kit in a dry, cool place to prevent corrosion.

Specific Safety Precautions for Use

- **Risk of Injury:** When cutting screws, use appropriate tools and wear protective gloves to avoid cuts.
- **Eye Protection:** Always wear safety goggles when working with screws to protect your eyes from flying debris.
- **Rust Prevention:** After cutting and trimming screws, dip them in OXPHOBLUE to prevent rust and enhance durability.
- **Proper Handling:** Handle screws carefully to avoid dropping them, which may lead to injury or damage.

Instructions for Installation and Usage

1. Selecting the Right Screw:

- Choose the appropriate screw size based on your project requirements.
- Ensure the length of the screw is suitable for the material you are working with.

2. Cutting Screws:

- If necessary, cut screws to the desired length using a suitable cutting tool.
- Always cut away from your body and keep your hands clear of the cutting path.

3. Dipping in OXPHOBLUE:

- After cutting, dip the screws in OXPHOBLUE to provide a protective coating against rust.
- Allow screws to dry completely before use.

4. Installation:

- Use a compatible screwdriver to install screws securely.
- Do not overtighten screws as this may cause damage to the material or the screw.

Disposal Instructions

- Dispose of any damaged or unusable screws in accordance with local waste disposal regulations.
- Recycle packaging materials where possible.

Contact Information for Further Support

For any safety inquiries or concerns regarding the FILLISTER HEAD SCREW KIT, please refer to the manufacturer's contact information provided on the packaging or the product's official website.

Please ensure you follow these guidelines to promote safety and effectiveness while using your FILLISTER HEAD SCREW KIT. Stay safe and enjoy your projects!
