

# BOLT LAPPING TOOLS - THREADED SLEEVE FOR WINCHESTER 70 ONLY

[Gunsmith Tools & Supplies](#) > [Rifle Tools](#) > [Bolt Tools](#) > [Bolt Lapping Tools](#)

## Interchangeable Design Gives Constant Spring Pressure For Precise Mating Of Locking Lug Recesses

Spring-loaded tool gives constant, straight-back pressure to keep bolt lugs square against the receiver while lapping with 600 to 800 grit, silicon carbide abrasive. Provides better results than mere thumb pressure. Interchangeable threaded sleeves fit popular actions listed below.

# Safety Instruction Guide for BOLT LAPPING TOOLS THREADED SLEEVE FOR WINCHESTER 70 ONLY

## Introduction

Thank you for choosing the BOLT LAPPING TOOLS THREADED SLEEVE FOR WINCHESTER 70 ONLY. This guide provides essential safety instructions and information to ensure the safe and effective use of this product. Please read this guide thoroughly before using the tool.

## General Safety Guidelines

- Always read the instruction manual before use.
- Ensure that the work area is clean and free from distractions.
- Keep the tool out of reach of children and vulnerable individuals.
- Use the tool for its intended purpose only.
- Inspect the tool for any signs of damage before each use. Do not use if damaged.
- Wear appropriate personal protective equipment (PPE), including safety glasses and gloves.
- Follow all local regulations regarding the use and disposal of abrasive materials.

## Specific Safety Precautions for Use

- Ensure that the bolt lapping tool is securely attached to the bolt before use.
- Use only the recommended grit sizes (600 to 800 grit) for lapping.
- Do not apply excessive force when lapping; the springloaded mechanism provides the necessary pressure.
- Avoid inhaling dust generated during the lapping process. Use a dust mask if necessary.
- Keep hands and body parts away from moving parts during operation.
- Do not modify or alter the tool in any way.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure that the work area is wellventilated and free of clutter.
- Gather all necessary tools and materials before starting.

### 2. Installing the Tool:

- Select the appropriate threaded sleeve for your action type (M14/M1A, Mauser, Savage).
- Attach the sleeve to the bolt tool body by screwing it securely in place.
- Insert the plunger into the tool body.

### 3. Using the Tool:

- Prepare the bolt by cleaning it thoroughly to remove any debris.
- Apply a small amount of abrasive compound to the bolt lugs.
- Insert the bolt into the receiver and ensure it is properly seated.
- Activate the springloaded mechanism to apply consistent pressure on the bolt lugs.
- Move the bolt back and forth gently to lap the lugs against the receiver. Do not force the movement.
- Periodically check the progress and reapply abrasive compound as necessary.

#### 4. PostUsage Care:

- Clean the tool and remove any residual abrasive material after use.
- Store the tool in a dry place, away from moisture and direct sunlight.

## Disposal Instructions

- Dispose of any used abrasive materials in accordance with local regulations.
- Do not dispose of the tool in regular household waste. Check for local recycling programs for tools and equipment.

## Contact Information for Further Support

For any questions or concerns regarding the use of this product, please contact the manufacturer's customer support service. Ensure that you have the product details on hand for assistance.

By following these safety instructions, you can ensure the safe and effective use of the BOLT LAPPING TOOLS THREADED SLEEVE FOR WINCHESTER 70 ONLY. Thank you for your attention to safety.
