

5° CHAMFER CUTTER - BROWNELLS 5 CHAMFER CUTTER FOR .38 CALIBER

[Gunsmith Tools](#) > [Handgun Tools](#) > [Barrel Tools](#) > [Chamfering Tools](#)

No Lathe Needed, No Need To Remove Barrel From Frame

Super gentle angle as currently used by Ruger on their .38/.357 DA guns. If you set back a Ruger barrel or just want to duplicate this angle on any other barrel, use this cutter. You CANNOT use 18° or 11° cutters on a 5° throat without exceeding maximum throat diameter or making a compound angle.

5° Chamfer Cutter Safety Instructions

Introduction

Thank you for choosing the 5° Chamfer Cutter from Brownells. This product is designed for precision chamfering of .38 caliber barrels. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Always use the chamfer cutter in accordance with the manufacturer's instructions.
- Inspect the cutter before each use for any signs of damage or wear.
- Ensure that the working area is clean and free from obstructions.
- Wear appropriate personal protective equipment (PPE), including safety glasses and gloves, to protect against debris and sharp edges.
- Keep the cutter out of reach of children and vulnerable individuals.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Do not use the cutter on barrels that do not meet the specified caliber requirements.
- Ensure that the cutter is securely attached to the tool before use to prevent accidents.
- Avoid excessive force when using the cutter to prevent damage to the tool or workpiece.
- Always cut away from your body to minimize the risk of injury.
- If you are inexperienced, seek guidance from a knowledgeable individual before using the cutter.
- Follow all local regulations regarding the use of tools and firearms.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials before starting.
- Ensure that your workspace is welllit and organized.

2. Installation:

- Securely attach the 5° Chamfer Cutter to your tool according to the manufacturer's guidelines.
- Confirm that the cutter is firmly in place and does not wobble.

3. Usage:

- Position the barrel securely in a vise or clamp to prevent movement.
- Align the cutter with the barrel throat, ensuring it is at a 5° angle.
- Apply gentle pressure and begin cutting, moving the cutter in a controlled manner.
- Regularly check the progress and adjust your technique as necessary to maintain the desired angle.

4. PostUse:

- Once finished, carefully remove the cutter from the tool.
- Clean the cutter and workspace to remove any debris.
- Store the cutter in a safe place, away from children and potential hazards.

Disposal Instructions

- Dispose of the cutter in accordance with local regulations regarding tool and material waste.
- If the cutter is damaged or no longer usable, ensure it is disposed of in a manner that prevents injury to others.

Contact Information for Further Support

For any inquiries regarding safety, usage, or concerns about the 5° Chamfer Cutter, please contact your local distributor or refer to the manufacturer's website for further assistance.

Thank you for your attention to these safety instructions. Your safety is our priority.
