

# SHOTGUN SIGHT KIT "A" - BROWNELLS SHOTGUN SIGHT REFILL SIGHTS #3 10 PACK

[Shotgun Parts](#) > [Sights](#) > [Sight Parts](#) > [Sight Refills](#)

## Replacement Shotgun Beads

Brownells Shotgun Sight Kit "A" is truly one of the most unusual bargains ever offered a Sporting Goods Store or Professional Gunsmith in a practical, economical assortment of top-quality, replacement shotgun sights. The workmanship is superb, being done on the most modern and up-to-date machinery in the U.S.A. The sight globes are true spheres - not lop-sided as those you have found on many other sights at a higher price. The threads are cut onto the shank, and are clean, sharp and well-machined for the best possible fit. Shanks are threaded right up to the base of the bead so you can set the sight exactly onto the barrel. Your choice of sights in the Kit is extremely wide. There are 2 shank sizes, 3 bead sizes and 2 bead colors, giving you a total of 8 different sights to choose from so you can fit nearly any gun that comes into the shop. The two shank sizes are 3-56 and 6-48. Size 3-56 is one of the most widely used shanks in the industry and will fit most guns having threaded sight holes. The 6-48 shaft was chosen for the alternate size to be used when the original hole must be redrilled and tapped - or where there is no hole at all - because 6-48 is the firearm industry standard screw size, and every gunshop in the country will have the drill and tap on hand to make the new hole. Bead sizes are .067, .130 and .175, (the most popular sizes), giving your customer the choice of small, medium or large beads. In addition, each bead size is available in either Gold color - machined from finest brass; or White color - machined from high tensile aluminum alloy. Neither color will bleed at the heels, wear off with hard use, or chip and peel, as almost all enameled sights eventually do. Brownells Shotgun Sight Kit "A" comes to you very attractively displayed in a clear plastic counter case. Each individual sight number is in its own plainly identified box on a black tray. There are 10 sights of each number, giving you a total of 80 sights in the Kit - 40 Gold and 40 White - a complete inventory of top-quality shotgun sights with an absolute minimum of capital invested. Don't pass up the opportunity to cash-in on the shotgun sight replacement market. For an unbelievably low investment you can have a complete, correctly balanced and assorted inventory of 80 superb shotgun sights. Don't let yourself get caught short when you can have them on hand so easily. Order your Brownells Shotgun Sight Kit "A" today! Refill Sights for Kit "A" - Refills for the Shotgun Sight Kit "A" are single or 10-pak of sights of one number.

# Brownells Shotgun Sight Kit “A” Safety Instructions

## Introduction

Thank you for choosing the Brownells Shotgun Sight Kit “A.” This kit provides a practical and economical assortment of highquality replacement shotgun sights. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Ensure that the shotgun sights are used only for their intended purpose.
- Regularly inspect the sights for any signs of wear or damage before installation.
- Keep the product out of reach of children and vulnerable individuals.
- Do not attempt to modify or alter the sights in any way.
- Always follow the manufacturer's instructions for installation and usage.

## Specific Safety Precautions for Use

- **Hazard Identification:** Sharp edges: The sights may have sharp edges that can cause cuts or injuries. Handle with care. Small parts: The kit contains small components that may pose a choking hazard for young children.
- **Avoiding Hazards:** Wear protective gloves when handling the sights to prevent cuts. Ensure that the work area is clear of children and pets during installation. Use appropriate tools for installation to avoid injury.
- **AgeSpecific Warnings:** This product is not intended for use by children under the age of 16 without adult supervision.

## Instructions for Installation and Usage

- **Installation Instructions:**
  1. Ensure the shotgun is unloaded and pointed in a safe direction.
  2. Select the appropriate shank size (356 or 648) based on your shotgun's specifications.
  3. Using the correct drill and tap, create a hole if necessary, or use the existing threaded hole.
  4. Carefully screw the chosen sight onto the barrel until secure, ensuring it is aligned properly.
  5. Check for a tight fit and make any necessary adjustments.
- **Usage Instructions:** Once installed, test the sight for stability before using the shotgun. Regularly check the sight during use to ensure it remains secure and functional. If any issues arise, remove the sight and inspect for damage.

## Disposal Instructions

- Dispose of any damaged or worn sights in accordance with local regulations.
- Recycle materials when possible, such as brass and aluminum components.
- Do not dispose of the product in household waste if local regulations prohibit it.

## Contact Information for Further Support

For safety inquiries or additional support, please refer to the manufacturer’s website or contact their customer service directly.

By adhering to these safety instructions, you can ensure the safe and effective use of the Brownells Shotgun Sight Kit "A." Thank you for your attention to these guidelines, and enjoy your shooting experience.
