

SHOTGUN SIGHT KIT "B" - BROWNELLS SHOTGUN SIGHT BRASS REFILL SIGHTS #24 10 PACK

[Shotgun Parts](#) > [Sights](#) > [Sight Parts](#) > [Sight Refills](#)

A Total Of 80 Precision, Economical, Good-Looking, Replacement Shotgun Beads

Brownells Shotgun Sight Kit "B" is the most important improvement in the replacement shotgun sight field since the introduction of the original Brownells Shotgun Sight Kit nearly 20 years ago. The new Kit is truly the natural and logical companion to the original Kit "A" - giving you, the gunsmithing or sports shop, all the sights that Kit "A" doesn't contain, but that you need to have a really versatile and complete replacement shotgun sight inventory in just 2 small boxes. Plus, in Kit "B", we took the practical step of making the White beads out of stainless steel. Stainless is stronger, won't crush or distort when the beads are installed, does not have to be removed when the gun goes into the hot bluing solution (and won't dissolve and ruin your bluing bath once it's in there)!! Plus, the stainless won't break off at the top of the shank, stays shiny forever, stands up to tougher use in the field, and generally is one whale of a lot better sight. But, the real advantage of Kit "B" is that by combining it with Kit "A", you can now have a selection of shank sizes unequaled among shotgun sights. So, if you get a gun in your shop with a badly misshapen, worn or stripped-out sight hole, you will have a bead of exactly the same size, but with a shank one size larger. Replacement is then just a simple matter of drilling out the hole to the next size larger, tapping, and inserting the new bead. The most important thing is that the Kit saves you time, giving faster work turnaround in the shop, which makes you more money. It also eliminates "patching-up" the original hole (which often then requires repairing the blue, too) and re-drilling and tapping for the original size shank. And, it gets your customer back in the field sooner which makes him happy, and makes you look good! Like the original Kit "A", the workmanship is superb, the sight globes are true spheres, the threads are cut onto the shank, so they are clean, sharp, and give the best possible fit. And, they are threaded right up to the base of the bead so you can set the sight exactly onto the barrel. Thread sizes are 6-48 and 8-40; certainly two of the most common and popular thread sizes in the gun industry, so everyone has the necessary drills and taps. The bead sizes are .067, .130 and .175, again the most popular sizes, and the same as those used in Kit "A". The Gold beads are machined from finest brass; the White beads from tough stainless steel. Because these are solid metal beads, they cannot bleed, chip, peel or have the color wear off. As the companion to Kit "A", Kit "B" also comes in a clear plastic counter case. Each individual sight number is in its own clearly identified box on a black tray. There are 10 sights of each number, giving you a total of 80 new sights. By itself, a complete inventory of 3 very popular sizes in 2 colors, with 6-48 and 8-40 shanks; but as a companion to Kit "A", an unbeatable assortment of the most versatile and useful shotgun sight beads available anywhere. And, right at your fingertips, ready to install for your customers. Order your Brownells Shotgun Sight Kit "B" today. Refill Sights for Kit "B" - Refills for the Shotgun Sight Kit "B" are single or 10-pak of sights of one number.

Safety Instruction Guide for Brownells Shotgun Sight Kit “B”

Introduction

Thank you for choosing the Brownells Shotgun Sight Kit “B”. This guide provides important safety information and instructions to ensure the safe and effective use of this product. Please read the entire guide carefully before using the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate personal protective equipment (PPE) such as safety goggles and gloves when handling the sights.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product for any damage or defects before use. Do not use if damaged.
- Follow all local laws and regulations regarding the use of firearm accessories.

Specific Safety Precautions for Use

- Avoid using the sights in extreme temperatures or environments that may affect their performance.
- Do not attempt to modify or alter the sights in any way, as this may compromise safety and effectiveness.
- Ensure that all tools used for installation are in good condition and suitable for the task.
- When drilling or tapping, ensure that the firearm is unloaded and pointed in a safe direction.
- If you experience any issues or malfunctions while using the product, cease use immediately and consult a qualified professional.

Instructions for Installation and Usage

1. Preparation:

- Gather the necessary tools, including drills, taps, and any other equipment needed for installation.
- Ensure that the firearm is unloaded and in a safe condition.

2. Selecting the Right Size:

- Choose the appropriate bead size based on the specifications of the firearm.
- Refer to the product specifications for available bead sizes: .067, .130, and .175.

3. Installation:

- Drill out the existing sight hole to the next size larger if necessary.
- Tap the hole to accommodate the new bead size.
- Insert the new bead, ensuring that it is threaded properly to the base.

4. Final Inspection:

- After installation, inspect the bead to ensure it is secure and properly aligned.
- Test the installation by gently applying pressure to ensure stability.

5. Usage:

- Use the shotgun sight as intended during shooting activities.

- Regularly check the sight for any signs of wear or damage during use.

Disposal Instructions

- Dispose of any packaging materials in accordance with local waste disposal regulations.
- If the product is no longer usable, dispose of it in a manner that complies with local environmental regulations.
- Do not dispose of the product in regular household waste. Check for local recycling programs for metal components.

Contact Information for Further Support

For any safety inquiries or additional support regarding the Brownells Shotgun Sight Kit “B”, please contact the manufacturer or your local distributor.

By following these guidelines, you can ensure the safe and effective use of your Brownells Shotgun Sight Kit “B”. Thank you for your attention to safety, and enjoy your shooting experience!
