

SHOTGUN SIGHT KIT "B" - SHOTGUN SIGHT STAINLESS REFILL SIGHTS #26 10 PACK

[Shotgun Parts](#) > [Sights](#) > [Sight Parts](#) > [Sight Refills](#)

A Total Of 80 Precision, Economical, Good-Looking, Replacement Shotgun Beads

Brownells Shotgun Sight Kit "B" is the most important improvement in the replacement shotgun sight field since the introduction of the original Brownells Shotgun Sight Kit nearly 20 years ago. The new Kit is truly the natural and logical companion to the original Kit "A" - giving you, the gunsmithing or sports shop, all the sights that Kit "A" doesn't contain, but that you need to have a really versatile and complete replacement shotgun sight inventory in just 2 small boxes. Plus, in Kit "B", we took the practical step of making the White beads out of stainless steel. Stainless is stronger, won't crush or distort when the beads are installed, does not have to be removed when the gun goes into the hot bluing solution (and won't dissolve and ruin your bluing bath once it's in there)!! Plus, the stainless won't break off at the top of the shank, stays shiny forever, stands up to tougher use in the field, and generally is one whale of a lot better sight. But, the real advantage of Kit "B" is that by combining it with Kit "A", you can now have a selection of shank sizes unequaled among shotgun sights. So, if you get a gun in your shop with a badly misshapen, worn or stripped-out sight hole, you will have a bead of exactly the same size, but with a shank one size larger. Replacement is then just a simple matter of drilling out the hole to the next size larger, tapping, and inserting the new bead. The most important thing is that the Kit saves you time, giving faster work turnaround in the shop, which makes you more money. It also eliminates "patching-up" the original hole (which often then requires repairing the blue, too) and redrilling and tapping for the original size shank. And, it gets your customer back in the field sooner which makes him happy, and makes you look good! Like the original Kit "A", the workmanship is superb, the sight globes are true spheres, the threads are cut onto the shank, so they are clean, sharp, and give the best possible fit. And, they are threaded right up to the base of the bead so you can set the sight exactly onto the barrel. Thread sizes are 6-48 and 8-40; certainly two of the most common and popular thread sizes in the gun industry, so everyone has the necessary drills and taps. The bead sizes are .067, .130 and .175, again the most popular sizes, and the same as those used in Kit "A". The Gold beads are machined from finest brass; the White beads from tough stainless steel. Because these are solid metal beads, they cannot bleed, chip, peel or have the color wear off. As the companion to Kit "A", Kit "B" also comes in a clear plastic counter case. Each individual sight number is in its own clearly identified box on a black tray. There are 10 sights of each number, giving you a total of 80 new sights. By itself, a complete inventory of 3 very popular sizes in 2 colors, with 6-48 and 8-40 shanks; but as a companion to Kit "A", an unbeatable assortment of the most versatile and useful shotgun sight beads available anywhere. And, right at your fingertips, ready to install for your customers. Order your Brownells Shotgun Sight Kit "B" today. Refill Sights for Kit "B" - Refills for the Shotgun Sight Kit "B" are single or 10-pak of sights of one number.

SHOTGUN SIGHT KIT "B" Safety Instructions

Introduction

Thank you for choosing the Brownells Shotgun Sight Kit "B". This guide provides important safety instructions and usage information to ensure a safe and effective experience with your product. Please read this document carefully before using the kit.

General Safety Guidelines

- Ensure that the Shotgun Sight Kit "B" is used only for its intended purpose.
- Always handle tools and components with care to prevent injury.
- Keep the kit out of reach of children and vulnerable individuals.
- Inspect the kit for any damage before use. Do not use damaged components.
- If you experience any difficulties or have questions about the product, seek assistance before proceeding.

Specific Safety Precautions for Use

- Use appropriate personal protective equipment (PPE) when installing or handling the sights, including safety glasses and gloves.
- When drilling or tapping, ensure that the firearm is completely unloaded and that the work area is clear of any distractions.
- Be cautious of sharp edges on the sights and other components to avoid cuts or punctures.
- Avoid exposing the stainless steel beads to harsh chemicals or extreme temperatures, as this may affect their integrity.
- Do not attempt to modify or alter the sights beyond the manufacturer's specifications.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and in a safe condition before beginning installation.
- Gather all necessary tools, including drills, taps, and safety equipment.

2. Selecting the Right Size:

- Choose the appropriate bead size from the kit based on the specific requirements of the shotgun.

3. Drilling:

- If the sight hole is worn or misshapen, drill out the hole to the next larger size using the appropriate drill bit.
- Clean any debris from the drilled hole.

4. Tapping:

- Use the tap that corresponds to the new bead size to create threads in the drilled hole.
- Ensure the threads are clean and free from debris.

5. Installing the Sight:

- Carefully insert the new bead into the tapped hole.
- Ensure that the bead is seated properly and securely.

6. Final Inspection:

- Check that the sight is aligned correctly and securely fastened.
- Perform a function check on the firearm to ensure that it operates safely.

Disposal Instructions

- Dispose of any unused or broken parts in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for local recycling programs or hazardous waste disposal options.

Contact Information for Further Support

For any inquiries regarding safety or usage of the Brownells Shotgun Sight Kit "B", please refer to the product packaging for contact details or consult the official website.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective experience with your Brownells Shotgun Sight Kit "B". Always prioritize safety and responsible usage to protect yourself and others. Thank you for your attention to these important guidelines.
