

SHOTGUN SIGHT KIT "B" - SHOTGUN SIGHT STAINLESS REFILL SIGHTS #27 10 PACK

[Shotgun Parts](#) > [Sights](#) > [Sight Parts](#) > [Sight Refills](#)

A Total Of 80 Precision, Economical, Good-Looking, Replacement Shotgun Beads

Brownells Shotgun Sight Kit "B" is the most important improvement in the replacement shotgun sight field since the introduction of the original Brownells Shotgun Sight Kit nearly 20 years ago. The new Kit is truly the natural and logical companion to the original Kit "A" - giving you, the gunsmithing or sports shop, all the sights that Kit "A" doesn't contain, but that you need to have a really versatile and complete replacement shotgun sight inventory in just 2 small boxes. Plus, in Kit "B", we took the practical step of making the White beads out of stainless steel. Stainless is stronger, won't crush or distort when the beads are installed, does not have to be removed when the gun goes into the hot bluing solution (and won't dissolve and ruin your bluing bath once it's in there)!! Plus, the stainless won't break off at the top of the shank, stays shiny forever, stands up to tougher use in the field, and generally is one whale of a lot better sight. But, the real advantage of Kit "B" is that by combining it with Kit "A", you can now have a selection of shank sizes unequaled among shotgun sights. So, if you get a gun in your shop with a badly misshapen, worn or stripped-out sight hole, you will have a bead of exactly the same size, but with a shank one size larger. Replacement is then just a simple matter of drilling out the hole to the next size larger, tapping, and inserting the new bead. The most important thing is that the Kit saves you time, giving faster work turnaround in the shop, which makes you more money. It also eliminates "patching-up" the original hole (which often then requires repairing the blue, too) and re-drilling and tapping for the original size shank. And, it gets your customer back in the field sooner which makes him happy, and makes you look good! Like the original Kit "A", the workmanship is superb, the sight globes are true spheres, the threads are cut onto the shank, so they are clean, sharp, and give the best possible fit. And, they are threaded right up to the base of the bead so you can set the sight exactly onto the barrel. Thread sizes are 6-48 and 8-40; certainly two of the most common and popular thread sizes in the gun industry, so everyone has the necessary drills and taps. The bead sizes are .067, .130 and .175, again the most popular sizes, and the same as those used in Kit "A". The Gold beads are machined from finest brass; the White beads from tough stainless steel. Because these are solid metal beads, they cannot bleed, chip, peel or have the color wear off. As the companion to Kit "A", Kit "B" also comes in a clear plastic counter case. Each individual sight number is in its own clearly identified box on a black tray. There are 10 sights of each number, giving you a total of 80 new sights. By itself, a complete inventory of 3 very popular sizes in 2 colors, with 6-48 and 8-40 shanks; but as a companion to Kit "A", an unbeatable assortment of the most versatile and useful shotgun sight beads available anywhere. And, right at your fingertips, ready to install for your customers. Order your Brownells Shotgun Sight Kit "B" today. Refill Sights for Kit "B" - Refills for the Shotgun Sight Kit "B" are single or 10-pak of sights of one number.

Safety Instruction Guide for SHOTGUN SIGHT KIT "B"

Introduction

Thank you for choosing the Brownells Shotgun Sight Kit "B". This product is designed to enhance your shotgun sight inventory and ensure a versatile and complete replacement solution. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always handle the shotgun sight kit with care to avoid injury.
- Ensure that all tools and accessories are used as intended.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the sights for any signs of damage or wear.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Stay informed about product recalls and safety updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Avoid Eye Injury:** Always wear safety goggles when installing or adjusting sights to protect your eyes from debris.
- **Work Environment:** Ensure your workspace is clean and welllit to prevent accidents.
- **Proper Tools:** Use only the recommended tools for installation and adjustment to avoid damaging the sights or the firearm.
- **Installation:** Follow the installation instructions carefully to avoid improper fitting, which could lead to malfunction or injury.
- **Check Compatibility:** Ensure that the sight is compatible with your specific shotgun model before installation.
- **Secure Installation:** Make sure the sight is securely installed before using the firearm to prevent it from coming loose during operation.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including a drill, taps, and the Brownells Shotgun Sight Kit "B".
- Ensure the firearm is unloaded and pointed in a safe direction.

2. Removing the Old Sight:

- If replacing an existing sight, carefully remove it using the appropriate tools.
- Clean the sight hole to remove any debris or old adhesive.

3. Selecting the Right Size:

- Choose a bead size from the kit that matches the original sight or is one size larger if the hole is worn.
- Check the thread size (648 or 840) to ensure compatibility.

4. Drilling:

- If using a larger bead, drill out the old sight hole to the next size larger using the correct drill bit.

- Tap the hole to create threads for the new sight.

5. Installing the New Sight:

- Insert the new bead into the tapped hole, making sure it is threaded securely.
- Adjust the sight as needed to align properly with the barrel.

6. Final Check:

- Ensure the sight is firmly in place and does not move when touched.
- Perform a visual inspection to confirm proper installation.

Disposal Instructions

- Dispose of any packaging materials and old sights in accordance with local regulations.
- Do not dispose of the product in regular household waste if it contains metal parts; check for recycling options.
- Ensure that any hazardous materials are handled according to local environmental guidelines.

Contact Information for Further Support

For any inquiries regarding safety, installation, or product performance, please refer to the manufacturer's contact details included with your product packaging or visit the official website for more information.

Thank you for your attention to these safety instructions. Enjoy using your Brownells Shotgun Sight Kit "B" responsibly and safely.
