# Safety Instruction Guide for Socket Head Scope Ring & Base Screw Kit

## Introduction

Thank you for purchasing the Socket Head Scope Ring & Base Screw Kit. This product is designed to provide you with a wide variety of socket head screws suitable for various applications. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Always handle screws and tools with care to avoid injury.
- Keep the kit out of reach of children and vulnerable individuals.
- Inspect screws and tools before use for any signs of damage or wear.
- Follow the installation and usage instructions provided in this guide.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about recalls and safety updates via the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure that the correct screw size and type are used for your specific application to avoid stripping or damaging the material.
- Use appropriate tools when tightening screws to prevent overtightening, which can lead to breakage or damage.
- When custom fitting screws, use the Checker/Shortener Jig provided in the kit to ensure safety and accuracy.
- Always wear safety goggles and gloves when grinding or modifying screws to protect against debris.
- Do not use damaged screws; replace them immediately to avoid accidents.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools and components from the kit.
- Ensure the work area is clean and welllit.

### 2. Selecting the Right Screw

- Choose the appropriate screw from the kit based on the required length and thread size:
  - 640
  - 648
  - 840
- Refer to the included chart for compatibility with bases, rings, and ribs.

### 3. Installation Steps

- Align the screw with the mounting hole of the base or ring.
- Using the correct size socket (3/32"), insert the screw and tighten it gently.
- Ensure that the screw is snug but do not overtighten to prevent damage.

### 4. Custom Fitting

- If a screw needs to be shortened, use the Checker/Shortener Jig:

- Secure the screw in the jig.
- Use a grinder to carefully reduce the screw length to the desired size.
- Always wear safety goggles during this process.

## **5. Final Check**

- After installation, check that all screws are securely fastened.
- Inspect the assembly for any loose components before use.

## **Disposal Instructions**

- Dispose of any unused or damaged screws responsibly.
- Follow local regulations for disposal of metal products.
- Recycle packaging materials where possible.

## **Contact Information for Further Support**

For any inquiries regarding safety or product issues, please refer to the contact information provided in your product packaging or on the manufacturer's website.

By adhering to these safety guidelines and instructions, you can ensure a safe and effective experience with your Socket Head Scope Ring & Base Screw Kit. Thank you for choosing our product.
