

BARREL CHAMFERING PLUG GAUGES - 11°-18° 41 CALIBER BARREL CHAMFERING PLUG GAUGE ONLY

[Gunsmith Tools & Supplies](#) > [Handgun Tools](#) > [Barrel Tools](#) > [Chamfering Tools](#)

For Maximum Accuracy & Results Using Pistol Chamfering Tools

There is a very narrow, (.004") throat diameter range where maximum accuracy is obtained. Go smaller or larger and accuracy will suffer. By simply slipping the Plug Gauge into the barrel throat, it is possible to tell at a glance when you are approaching the correct diameter. Warns you before you go too far. Also valuable as a diagnostic tool for guns brought in with accuracy complaints, (designed for chamfers cut with our tools - may not give a correct reading on guns with other degrees of chamfer). Each gauge is self-piloted, precision-ground, hardened and stepped to show minimum and maximum optimum diameters. 11° and 18° Gauge measures both chamfer angles. Sizes .22RF; .32; .38/.357; .38-40/.40; .41; .44; .45. 5° Ruger-Style Gauge available in .38/.357, .44 and .45 caliber only.

Attributes

- Name: [11°-18° 41 CALIBER BARREL CHAMFERING PLUG GAUGE ONLY](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 080580141
- Mfr. No.:
- Caliber: 41 Caliber (.410-.412)
- Degree: 11 Degrees, 18 Degrees
- Make: Universal Handguns
- Delivery weight: 0.014kg
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 050806016156

Safety Instruction Guide for BARREL CHAMFERING PLUG GAUGES 11°18° 41 CALIBER

Introduction

Thank you for choosing the BARREL CHAMFERING PLUG GAUGES 11°18° 41 CALIBER. This guide provides essential safety instructions and information to ensure the safe use and handling of this product. Please read this document carefully before using the gauges.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the gauges out of reach of children and unauthorized users.
- Always inspect the product for any damage before use. Do not use if damaged.
- Use appropriate personal protective equipment (PPE) such as safety glasses when using the gauges.
- Follow all local regulations and guidelines regarding the use and handling of firearms and related tools.

Specific Safety Precautions for Use

- The throat diameter range of the gauges is very narrow (0.004"). Ensure you are familiar with this specification to avoid compromising accuracy.
- The gauge is designed to be slipped into the barrel throat. Ensure that you do this gently to avoid damaging the gauge or the firearm.
- The gauge is meant for barrels with chamfers cut using our tools. It may not provide accurate readings on guns with different degrees of chamfer.
- Use the gauge in a welllit area to ensure visibility and accuracy when checking diameters.
- If you experience any difficulty or resistance while using the gauge, stop immediately and reassess the situation to prevent damage.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Clean the barrel throat area to remove any debris that may affect the gauge's performance.

2. Using the Gauge:

- Select the appropriate gauge for the caliber and chamfer angle you are measuring.
- Gently insert the gauge into the barrel throat.
- Observe the gauge to determine if you are approaching the correct diameter. The gauge will indicate when you are nearing the optimum size.
- Do not force the gauge into the throat. If it does not fit easily, reassess the size and condition of the barrel.

3. PostUse:

- After use, clean the gauge to remove any residue.
- Store the gauges in a secure location, preferably in the provided Bench Kit Box, to prevent damage and ensure longevity.

Disposal Instructions

- Dispose of the product in accordance with local regulations regarding metal and tool disposal.
- Do not dispose of the product in regular household waste.
- If the product is damaged or no longer usable, consider recycling options available in your area.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product concerns, please refer to the contact information provided with your product packaging or visit our website for further assistance.

Conclusion

Adhering to these safety guidelines and instructions will help ensure your safety and the effectiveness of the BARREL CHAMFERING PLUG GAUGES 11°18° 41 CALIBER. Thank you for your attention to these important details, and happy measuring!
