

STEEL ONE CALIBER SETS - STEEL ONE CALIBER SET FITS .45 MUZZLE

[Gunsmith Tools & Supplies](#) > [Barrel Tools](#) > [Barrel Chamfering Tool Kits](#)

Square Up & Chamfer Rifle & Handgun Muzzles - Steel Bore Pilot

Set includes: one, 90° facing cutter to square a muzzle after shortening, or repair damage; one, 45° chamfering cutter to break the edges of the rifling for a clean bullet exit or chamfer a revolver cylinder mouth for quick reloads; plus one handle that fits either cutter and one steel bore pilot. Interchangeable pilot keeps cutter properly aligned. Purchase extra pilots to use one cutter for many different calibers. Pilots for other calibers available separately.

Select one of the following for other rifle/handgun muzzles, cylinder facing & chamfering tools.

Safety Instruction Guide for STEEL ONE CALIBER SETS

Introduction

Thank you for purchasing the STEEL ONE CALIBER SET. This product is designed to provide you with the tools necessary for precise muzzle work, including cutting and chamfering for .45 caliber firearms. To ensure safe and effective use, please read this safety instruction guide thoroughly before using the product.

General Safety Guidelines

- Always follow the manufacturer's instructions for use.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the tools for any damage before use. Do not use if damaged.
- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves during operation.
- Ensure that your workspace is clean, organized, and free of hazards.
- Do not use the tools for any purpose other than their intended use.
- Be aware of your surroundings and ensure that no one is in the vicinity while operating the tools.

Specific Safety Precautions for Use

- **Cutting Tools:**
 - Handle the cutters with care to avoid cuts or injuries.
 - Ensure that the cutter is securely attached to the handle before use.
 - Do not apply excessive force when cutting; let the tool do the work.
- **Chamfering Tools:**
 - Use the chamfering cutter only on designated surfaces.
 - Keep your hands clear of the cutting area while in operation.
- **Pilot:**
 - Ensure the pilot is properly aligned with the cutter to avoid misalignment.
 - Use only the specified pilots for your caliber to ensure compatibility.

Instructions for Installation and Usage

1. **Preparation:**
 - Gather all necessary tools and materials.
 - Ensure you have a clean and welllit workspace.
2. **Attaching the Cutter:**
 - Select the appropriate cutter (90° facing cutter or 45° chamfering cutter).
 - Insert the cutter into the handle until it is securely in place.
3. **Using the Cutter:**
 - Position the muzzle securely in a vice or stable surface.
 - Align the cutter with the muzzle and apply gentle pressure.
 - Rotate the cutter in a clockwise direction to square the muzzle or chamfer the edges as needed.
4. **Using the Chamfering Cutter:**
 - Position the revolver cylinder or other parts securely.
 - Align the chamfering cutter with the edge and apply gentle pressure.
 - Rotate the cutter to create a clean chamfer.
5. **Cleaning and Maintenance:**
 - After use, clean the cutters and handle with a soft cloth.
 - Store the tools in the provided polypropylene box to protect them from damage.

Disposal Instructions

- Dispose of any damaged or wornout tools in accordance with local regulations.
- Do not dispose of tools in regular household waste if they contain hazardous materials.
- Consider recycling the metal components where applicable.

Contact Information for Further Support

For any inquiries regarding safety or product use, please refer to the manufacturer's contact information provided with your product packaging. It is important to have access to support for any questions or concerns you may have regarding the STEEL ONE CALIBER SET.

By following these guidelines, you can ensure a safe and effective experience with your STEEL ONE CALIBER SET. Always prioritize safety and do not hesitate to seek assistance if needed. Thank you for choosing our product.
