

HIGH SPEED STEEL TAPS - REIFF & NESTOR COMPANY HIGH SPEED STEEL BOTTOM TAP 7/32"-40 THREAD

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Taps & Dies](#) > [Taps](#)

HIGH SPEED STEEL TAPS The Reiff & Nestor Company High Speed Steel Taps are precision-engineered tools designed for gunsmiths and firearm enthusiasts to create or repair internal threads in firearm components. Crafted from high-speed steel, these taps offer superior durability and maintain their hardness even under high temperatures, making them ideal for continuous use. These taps are available in various thread sizes and styles, including bottom, taper and plug taps, which are essential for threading close to the bottom of blind holes. The high-speed steel construction ensures longevity and precise threading, accommodating a wide range of gunsmithing applications. Specifications: Material: High-speed steel Tap Styles: Bottom Tap Thread Sizes Available: 8-40 3-56 6-40 7/32-40 Customer Insights: Users of the Reiff & Nestor Company High Speed Steel Taps appreciate their precision and durability. The high-speed steel construction allows for efficient threading without compromising the tool's integrity, making these taps a reliable choice for both professional gunsmiths and hobbyists. Incorporating the Reiff & Nestor Company High Speed Steel Taps into your gunsmithing toolkit ensures reliable and accurate threading, enhancing the quality and longevity of firearm components.

Attributes

- Name: [REIFF & NESTOR COMPANY HIGH SPEED STEEL BOTTOM TAP 7/32"-40 THREAD](#)
- Manufacturer: [REIFF & NESTOR COMPANY](#)
- Product no.: 080598115
- Mfr. No.:
- Material: Steel
- Style: Bottom
- Threads: 7/32-40
- Delivery weight: 0.136kg
- Shipping width: 83mm
- Shipping length: 146mm

Safety Instruction Guide for High Speed Steel Taps

Introduction

Thank you for choosing the Reiff & Nestor Company High Speed Steel Taps. These precisionengineered tools are designed to assist gunsmiths and firearm enthusiasts in creating or repairing internal threads in firearm components. While these tools are built for durability and performance, it is essential to follow safety guidelines to ensure safe usage and to maintain the integrity of the tools.

General Safety Guidelines

- Always read the product instructions carefully before use.
- Ensure that the workspace is clean, organized, and welllit to prevent accidents.
- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using the taps.
- Keep tools out of reach of children and ensure that they are used only by qualified individuals.
- Regularly inspect tools for signs of wear or damage before use, and do not use damaged tools.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Ensure that the tap is suitable for the material you are working with.
- Use the correct tap size for the intended thread size to avoid damage to the workpiece.
- Apply cutting fluid to the tap and workpiece to reduce friction and heat during use.
- Use a tap wrench to ensure proper torque and control when tapping threads.
- Avoid excessive force when using the tap; if resistance is felt, stop and check for problems.
- Always tap threads in a straight line to prevent breakage and ensure accuracy.
- Follow the recommended tapping speeds for the specific material being worked on.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials, including the tap, tap wrench, cutting fluid, and safety equipment.
- Ensure that the workpiece is securely clamped or held in place.

2. Tapping Threads:

- Apply cutting fluid to the tap and the area where the threads will be created.
- Insert the tap into the tap wrench and align it perpendicularly to the workpiece.
- Begin turning the tap slowly and steadily, applying light pressure.
- After every full turn, back the tap out slightly to clear any chips and avoid binding.
- Continue tapping until the desired depth is reached.

3. Completion:

- Once the tapping is complete, carefully remove the tap from the workpiece.
- Clean any debris or cutting fluid from the workpiece and tap.
- Store the tap in a safe, dry place when not in use.

Disposal Instructions

- Dispose of any damaged or worn taps in accordance with local regulations.
- Do not dispose of taps in regular household waste; check for local recycling programs or hazardous waste disposal facilities.

Contact Information for Further Support

For any inquiries regarding the Reiff & Nestor Company High Speed Steel Taps, including safety concerns or product information, please contact your local distributor or visit the official Reiff & Nestor Company website for further assistance.

By following these safety instructions, you can ensure a safe and effective experience while using the High Speed Steel Taps. Thank you for your attention to safety and for choosing our product.
