Cleans Up Barrel & Receiver Threads For Fast, Easy Installation

Clean and chase dinged or imperfect threads. Real lifesavers for any rebarreling job, especially good when installing any of our "no-lathe", pre-threaded barrels. Thanks to Walt Warren for his suggestion.

Safety Instruction Guide for BARREL/RECEIVER DIES

Introduction

Thank you for purchasing the BARREL/RECEIVER DIES for the Remington 700. This product is designed to clean and chase dinged or imperfect threads, making it an essential tool for any rebarreling job. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Always use the product in a wellventilated area to avoid inhaling any fumes or debris.
- Wear appropriate personal protective equipment (PPE) including safety goggles, gloves, and a dust mask.
- Keep the work area clean and free of clutter to prevent accidents.
- Ensure that the product is used only for its intended purpose as described in this guide.
- Be aware of your surroundings and keep bystanders, especially children, at a safe distance while using the product.
- Regularly inspect the tool for any signs of damage or wear. If damaged, do not use and replace it immediately.

Specific Safety Precautions for Use

- When using the dies, ensure they are securely attached to the appropriate tool to prevent slippage.
- Avoid using excessive force while cutting threads; this can cause the die to break or lead to injury.
- Do not attempt to modify or alter the dies in any way, as this can compromise safety and functionality.
- If you experience any discomfort or unusual noise while using the product, stop immediately and inspect the tool.
- Always follow the manufacturer's instructions for the specific tool used with the dies.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and safety equipment before starting.
- Ensure the area is clean and welllit.

2. Installation of the Die:

- Select the appropriate die for your threading needs (11/16"16 tpi for Remington 700).
- Secure the die in the die holder or tool according to the manufacturer's instructions.
- Doublecheck that the die is properly aligned and tightened.

3. Using the Die:

- Position the die over the threads to be cleaned or chased.
- Apply gentle, even pressure as you turn the die clockwise to cut threads.
- If you encounter resistance, do not force the die; instead, back it off and inspect the threads for any issues.

4. PostUse:

- Once you have finished using the die, clean it thoroughly to remove any debris or metal shavings.
- Store the dies in a safe, dry place, away from moisture and direct sunlight.

Disposal Instructions

- Dispose of any damaged or unusable dies in accordance with local regulations.
- Recycle packaging materials where possible.
- Do not dispose of the product in household waste; check for local recycling programs for metal tools.

Contact Information for Further Support

For any questions or concerns regarding the product, please refer to the manufacturer's contact details provided with your purchase. If you encounter any safety issues or accidents, report them to the appropriate authorities and check for recall updates on the EU's Safety Gate platform.

Thank you for your attention to these safety instructions. Your safety is our priority, and we hope you enjoy using the BARREL/RECEIVER DIES.
