Accurately Thread Custom Barrels, Easily Clean Up Standard Barrels, or Recondition Damaged Threads

FLASH SUPPRESSOR DIE FOR AR-15/M16 & AR-308 The Brownells AR-15/M16 & AR-308 Flash Suppressor Die is an essential tool for gunsmiths and firearm enthusiasts who need to thread custom barrels or restore existing threads on AR-15 and M16 rifles. Made from high-speed or carbon steel, this die ensures durability and precision in creating or repairing 1/2"-28 or 5/8"-24 threads, which are standard for AR-15/M16 or AR-308 flash suppressors. Key Features: Material: High-speed steel for round dies Carb steel for hex dies Thread Specification: 1/2"-28 5/8"-24 Body Diameter: 1" This die is custom-made to factory specifications, making it a reliable choice for ensuring that flash suppressors attach securely and function correctly. Its precision threading capabilities help maintain the integrity and performance of your firearm's muzzle device. Incorporating the Brownells AR-15/M16 & AR-308 Flash Suppressor Die into your gunsmithing toolkit provides a dependable solution for maintaining and customizing your rifle's threading needs, ensuring optimal performance and safety.

Safety Instruction Guide for Brownells Flash Suppressor Die for AR15/M16 & AR308

Introduction

Thank you for choosing the Brownells Flash Suppressor Die for AR15/M16 & AR308. This product is designed for gunsmiths and firearm enthusiasts who require precision threading for their firearms. It is essential to follow safety guidelines to ensure safe usage and optimal performance.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using this die.
- Keep the die out of reach of children and unauthorized users.
- Inspect the die for any damage or defects before use. Do not use if damaged.
- Follow all local laws and regulations regarding firearms and gunsmithing.

Specific Safety Precautions for Use

- Use the die only with compatible firearms (AR15/M16 and AR308).
- Ensure that the firearm is unloaded before attempting to thread or unthread any components.
- Avoid using excessive force when threading to prevent damage to the die or the firearm.
- Always work in a well-ventilated area to avoid inhaling any metal shavings or debris.
- Dispose of any metal shavings or debris properly to avoid injury.

Instructions for Installation and Usage

1. Preparation:

- Gather necessary tools, including the Brownells Flash Suppressor Die, a compatible threading tool, and appropriate PPE.
- Ensure the workspace is clean and organized.

2. Threading Process:

- Confirm the thread size required for your firearm (1/2"28 for AR15/M16 or 5/8"24 for AR308).
- Secure the barrel or component in a vice to prevent movement during threading.
- Align the die with the existing threads or the area to be threaded.
- Rotate the die clockwise to begin threading. Apply consistent pressure without excessive force.
- Periodically back the die off to clear any debris from the threads.
- Continue until the desired depth of threading is achieved.

3. PostUsage:

- Clean the die and the threaded area to remove any metal shavings or debris.
- Store the die in a safe, dry place away from moisture and direct sunlight.

Disposal Instructions

- Dispose of the product in accordance with local regulations regarding metal products.
- Ensure that any damaged or unusable parts are disposed of safely to prevent injury.

Contact Information for Further Support

For any inquiries regarding the product, please refer to the product packaging or visit the manufacturer's website for assistance.

By adhering to these safety guidelines and instructions, you can ensure safe and effective use of the Brownells Flash Suppressor Die for AR15/M16 & AR308. Always prioritize safety and compliance with local laws when working with firearms.
