## Puts Finish Polish On Shotgun Bores That Is Truly Outstanding

Hundreds of abrasive "balls" mounted on a flexible shaft - the fastest, easiest way we've come across to clean and polish older barrels or put a mirror polish in new ones. For used barrels, the Medium-Coarse hone, followed by the Fine, removes rough and tight spots and brings the bore to a bright finish that you can see and feel . . . just run a patch through it before and after; the difference is amazing! We found too, that we could feel tight spots during honing and spend extra time on them until they were evened out. On new barrels, the Fine hone by itself will bring the factory finish up to a beautiful, mirror-bright finish that's a real customer pleaser. Easy to use: chuck in a variable speed electric drill; wet the hone with Flex Hone® oil; start the drill and insert the hone into the barrel from the breech end (if possible). As it cuts, a slurry of abrasive and oil develops to help speed the cutting action. Flex Hone® available (shown below) in sets and individual hones for 10, 12, 16 and 20 gauge barrels as well as .410 bore. Also, special-sized hones for 10, 12, 16, 20 gauge chambers and .410 bore. Instructions walk you through the steps for a perfect job. (You MUST use Flex Hone® oil - all other oils will destroy the abrasive "balls" and void our guarantee!) 750 RPM MAX. Avoid excess pressure. # SHOTGUN BARREL POLISHING FLEX HONE® 410 BORE FINE FLEX HONE Safety Instructions

## Introduction

Thank you for choosing the SHOTGUN BARREL POLISHING FLEX HONE® 410 BORE FINE FLEX HONE. This product is designed to help you clean and polish shotgun barrels effectively. To ensure your safety and the proper use of this product, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Always use the product in accordance with the instructions provided.
- Ensure you are in a wellventilated area when using the Flex Hone.
- Keep the product out of reach of children and pets.
- Inspect the product before each use for any signs of damage or wear.
- Do not use the Flex Hone if it appears damaged or if the flexible shaft is compromised.
- Use appropriate personal protective equipment (PPE), such as safety goggles and gloves, to prevent injury.

## Specific Safety Precautions for Use

### • Hazard Identification:

- The abrasive "balls" can cause skin irritation; avoid direct contact.
- The product may produce small particles during use; wear a mask to avoid inhalation.
- The drill can produce high speeds; ensure a secure grip to prevent accidents.

### • Avoiding Hazards:

- Always use the Flex Hone with a variable speed electric drill set to a maximum of 750 RPM.
- Do not apply excessive pressure while honing; let the tool do the work.
- Use only Flex Hone® oil to lubricate the product; other oils may damage the abrasive "balls."
- Ensure the hone is inserted properly into the barrel from the breech end to avoid damage.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary materials, including the Flex Hone, Flex Hone oil, a variable speed electric drill, and cleaning patches.
- Ensure the shotgun is unloaded and in a safe condition before starting.

### 2. Using the Flex Hone:

- Wet the hone with Flex Hone® oil.
- Insert the hone into the barrel from the breech end (if possible).
- Start the drill at a low speed and gradually increase to a maximum of 750 RPM.
- Move the hone in and out of the barrel smoothly, allowing the abrasive action to clean and polish the surface.
- Check for tight spots during honing and spend extra time on those areas if necessary.
- After honing, run a cleaning patch through the barrel to remove debris and check the finish.

### 3. PostUse:

- Clean the Flex Hone and store it in a dry place.
- Dispose of any used cleaning materials in accordance with local regulations.

## **Disposal Instructions**

- Dispose of the product and any associated materials in accordance with local waste disposal regulations.
- Do not dispose of the product in regular household waste if it contains hazardous materials.

## **Contact Information for Further Support**

For any inquiries related to the safety and performance of the SHOTGUN BARREL POLISHING FLEX HONE® 410 BORE FINE FLEX HONE, please refer to the manufacturer's contact information provided in the product packaging or manual.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective experience while using the SHOTGUN BARREL POLISHING FLEX HONE® 410 BORE FINE FLEX HONE. Always prioritize safety and refer to this guide whenever you have questions or concerns about the proper use of the product. Thank you for your attention to safety.
