

LUG AREA HONE FOR 1911 AUTO SLIDE - BROWNELLS 1911 SLIDE LUG AREA HONE, MEDIUM

[Gunsmith Tools](#) > [Handgun Tools](#) > [Hones & Files](#)

The inside of a 1911 slide suffers a lot of wear and tear, but honing the critical part creates a smoother surface, reducing friction and wear. The treated surface features a beautiful shine and will be more corrosion resistant because the treatment actually increases the metal's ability to hold oil and lubricants. Hones are available in a medium 400 grit or a fine 800 grit.

Safety Instruction Guide for LUG AREA HONE FOR 1911 AUTO SLIDE

Introduction

Thank you for purchasing the LUG AREA HONE FOR 1911 AUTO SLIDE from Brownells. This product is designed to enhance the performance of your 1911 slide by honing the lug area, creating a smoother surface that reduces friction and wear. Please read this safety instruction guide carefully to ensure safe use and maintenance of the product.

General Safety Guidelines

- Ensure safe use of the LUG AREA HONE by following these guidelines:
 - Always read the instructions before use.
 - Keep the product out of reach of children and vulnerable individuals.
 - Inspect the hone for any damage before each use. Do not use if damaged.
 - Use only as intended, following the manufacturer's recommendations.
 - Be aware of your surroundings and ensure a safe working environment.
 - Wear appropriate personal protective equipment (PPE), including safety glasses and gloves.
 - Follow all local regulations regarding the use of abrasive tools.

Specific Safety Precautions for Use

- When using the LUG AREA HONE, please observe the following precautions:
 - Ensure that the 1911 slide is securely held in place before starting the honing process.
 - Do not apply excessive force while honing; let the tool do the work.
 - Use the appropriate grit for your specific needs: medium (400 grit) or fine (800 grit).
 - Always use the hone in conjunction with FlexHone oil to ensure optimal performance and safety.
 - Avoid inhaling dust generated during the honing process. Use a dust mask if necessary.
 - Store the hone in a safe, dry place after use to prevent damage and ensure longevity.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary materials, including the LUG AREA HONE, FlexHone oil, safety glasses, and gloves.
- Ensure that your work area is clean and free from distractions.

2. Application of FlexHone Oil:

- Apply a generous amount of FlexHone oil to the area of the slide you wish to hone.
- Ensure the surface is welllubricated to reduce friction during the honing process.

3. Using the LUG AREA HONE:

- Insert the LUG AREA HONE into the slide lug area.
- Move the hone in and out gently, allowing the abrasive material to smooth the surface.
- Repeat the process as necessary, checking the surface frequently for desired smoothness.

4. Cleaning:

- After honing, clean the slide thoroughly to remove any debris or residue.

- Wipe the hone with a clean cloth and store it properly.

Disposal Instructions

- Dispose of any waste material, including used FlexHone oil and debris, in accordance with local regulations.
- Do not dispose of the product in household waste. Check with local authorities for proper disposal methods for abrasive tools.

Contact Information for Further Support

For any questions or concerns regarding the use of the LUG AREA HONE, please refer to the manufacturer's contact information provided with your purchase. Ensure you have the product details ready for efficient assistance.

By following these guidelines, you can ensure the safe and effective use of your LUG AREA HONE FOR 1911 AUTO SLIDE. Thank you for choosing Brownells, and enjoy your honing experience!
