Silicon Carbide Abrasive Balls For Flawless "Inside" Polishing On Revolvers & Semi-Auto Pistols

BROWNELLS MAINSPRING HOUSING HONE POLISHING SYSTEM FOR 1911 The Brownells Mainspring Housing Hone Polishing System for 1911 is a specialized tool designed to polish the interior of Government or Commander mainspring housings, resulting in a smooth, burr-free surface. This refinement is crucial for achieving a professional-grade trigger job, as it ensures consistent mainspring compression and reliable trigger performance. Description and Features: Crafted from durable silicon carbide, these hones are available in two grit options: medium (400 grit) and fine (800 grit). The medium grit hone efficiently removes rough spots and machining marks, while the fine grit hone provides a polished finish. Each hone measures 8 inches in overall length, allowing for easy access and maneuverability within the mainspring housing. For optimal results and to prolong the life of the hones, it is recommended to use them with Flex-Hone Oil. Specifications: Material: Silicon carbide Grit Options: Medium (400 grit) and Fine (800 grit) Length: 8 inches Compatibility: Fits Government and Commander 1911 mainspring housings Customer Insights: Customers of the Brownells Mainspring Housing Hone Polishing System appreciate its effectiveness in achieving a smooth, polished interior surface within the mainspring housing. The availability of both medium and fine grit options allows for a two-step polishing process, enhancing the quality of trigger jobs. Customers also value the durability of the silicon carbide material, noting that the hones maintain their effectiveness over multiple uses. Incorporating the Brownells Mainspring Housing Hone Polishing System for 1911 into your gunsmithing toolkit ensures precise and efficient polishing of mainspring housings, leading to improved trigger performance and overall firearm reliability.

Mainspring Housing Hone Polishing System

Safety Instructions

Introduction

Thank you for choosing the Mainspring Housing Hone Polishing System for your 1911 firearm. This product is designed to enhance the performance of your mainspring housing. Please read these safety instructions carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified in the product description.
- Always wear appropriate personal protective equipment (PPE) such as safety goggles and gloves when using the hone.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product for any damage before use. Do not use if damaged.
- Follow all local laws and regulations regarding firearms and firearm accessories.

Specific Safety Precautions for Use

- Use the hone only with FlexHone oil to ensure proper functionality and safety.
- Do not exceed the recommended operating speed to prevent overheating and potential injury.
- Avoid inhaling dust generated during the honing process. Use a dust mask if necessary.
- Ensure the working area is well-ventilated to minimize exposure to fumes and dust.
- Do not use the hone on any surface that is not compatible with the product specifications.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials, including the Mainspring Housing Hone, FlexHone oil, and PPE.
- Ensure your workspace is clean and organized.

2. Installation:

- Attach the hone to a suitable power tool according to the manufacturer's instructions.
- Apply a small amount of FlexHone oil to the hone before use.

3. Usage:

- Position the hone carefully within the mainspring housing.
- Operate the tool at a low speed to begin honing.
- Gradually increase speed as needed, ensuring that you maintain control of the tool.
- Frequently check the surface for desired smoothness and finish.
- After honing, clean the area thoroughly to remove any residual dust and debris.

4. PostUsage Care:

- Clean the hone with appropriate cleaning materials after each use.
- Store the hone in a safe, dry place, away from children and pets.

Disposal Instructions

- Dispose of any used FlexHone oil and debris in accordance with local regulations.
- Recycle the hone if possible. Check with local recycling facilities for specific guidelines.

Contact Information for Further Support

For any questions or concerns regarding the Mainspring Housing Hone Polishing System, please refer to the product packaging or visit the manufacturer's website for additional support and information.

Thank you for following these safety instructions. Your adherence to these guidelines will help ensure a safe and effective experience with your Mainspring Housing Hone Polishing System.
