# Safety Instruction Guide for 95427 PROSPRING KIT FOR SIG P220

## Introduction

Thank you for choosing the 95427 PROSPRING KIT FOR SIG P220. This guide provides essential safety instructions and usage recommendations to ensure the safe handling and installation of this product. Please read this guide carefully before use.

## General Safety Guidelines

- Ensure that you are using this product in accordance with the manufacturer's instructions.
- Always handle the spring kit with care to avoid injury.
- Keep the product out of reach of children and vulnerable individuals.
- Check for any visible damage to the product before installation. Do not use if any component appears damaged.
- Store the product in a cool, dry place away from direct sunlight and moisture.
- If you experience any issues or concerns regarding the product, discontinue use immediately and seek assistance.

## Specific Safety Precautions for Use

- Only use the spring kit with compatible firearms, specifically the SIG SAUER P220 models with plastic mainspring housing and stirrup.
- Ensure that the firearm is unloaded and pointed in a safe direction before starting any installation or maintenance.
- Wear safety glasses and appropriate protective gear while handling springs to protect against potential injuries from sudden release.
- Be aware that heavier recoil springs may affect the firearm's operation. Always test the firearm in a safe environment after installation.
- Avoid modifying the springs or using them in any manner that is not specified by the manufacturer.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure you have a clean workspace.
- Gather all necessary tools for installation, including a punch and a hammer.

### 2. Disassembly of the Firearm

- Unload the firearm completely.
- Follow the manufacturer's guidelines to disassemble the firearm to access the mainspring housing.

### 3. Spring Replacement

- Remove the existing recoil spring and hammer springs carefully.
- Install the new 20 lb., FSW recoil spring into the mainspring housing.
- Choose the appropriate hammer spring: either the 24 lb., FSW hammer spring or the 18 lb., RP hammer spring, based on your preference.
- Install the XP firing pin spring as per the manufacturer's instructions.

### 4. Reassembly of the Firearm

- Carefully reassemble the firearm, ensuring all parts are seated correctly.
- Check that all components are functioning properly before use.

## **5. Testing**

- Conduct a function test in a controlled environment to ensure proper operation of the firearm with the new springs installed.

## **Disposal Instructions**

- Dispose of any old springs and packaging materials in accordance with local regulations.
- Do not dispose of springs in a manner that could pose a risk to others or the environment.

## **Contact Information for Further Support**

For any inquiries regarding the safety or use of the 95427 PROSPRING KIT FOR SIG P220, please refer to the manufacturer's contact details provided on the packaging or their official website.

By following these guidelines, you can ensure the safe and effective use of your PROSPRING KIT. Thank you for prioritizing safety in your firearm maintenance.
