

STEEL PILOTS - STEEL PILOT FOR .38/.357 MUZZLE

[Gunsmith Tools & Supplies](#) > [Barrel Tools](#) > [Chamfering Tool Pilots](#)

Centers Cutters For Accurate Work

Hardened steel pilot keeps Facing and Chamfering cutters properly centered in the bore. Resists wear for years of service.

Select one of the following for other rifle/handgun muzzles, cylinder facing & chamfering tools.

[Steel One Caliber Set](#)

[45° Cutter & Steel Pilot](#)

[Brass One Caliber Set](#)

[45° Cutter & Brass Pilot](#)

[90° Cutter & Steel Pilot](#)

[Chamfering & Facing Combo Sets](#)

[90° Cutter & Brass Pilot](#)

[Brass Pilot Only](#)

Safety Instruction Guide for STEEL PILOTS STEEL PILOT FOR .38/.357 MUZZLE

Introduction

Thank you for choosing the STEEL PILOTS STEEL PILOT FOR .38/.357 MUZZLE. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this guide carefully before using the product to minimize risks and ensure compliance with safety regulations.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for wear and damage before use.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Stay informed about any recall updates via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, including eye protection, when using the product.
- Ensure that the working area is wellventilated and free from flammable materials.
- Do not exceed the recommended specifications for the product, including caliber and material compatibility.
- Avoid using the product if it shows signs of damage or excessive wear.
- Handle the product with care to prevent injury from sharp edges.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is unloaded and safe to work on.
- Gather necessary tools and safety equipment.

2. Installation:

- Select the appropriate pilot size for your firearm (.38/.357).
- Insert the hardened steel pilot into the bore, ensuring it is properly centered.
- Use facing and chamfering cutters as specified for your application.

3. Usage:

- Operate the tool at a steady pace to maintain control and avoid accidents.
- Monitor the condition of the pilot during use, looking for any signs of wear or damage.
- If any issues arise during operation, cease use immediately and inspect the product.

Disposal Instructions

- Dispose of the product in accordance with local regulations for metal waste.
- Ensure that the product is rendered unusable before disposal to prevent accidental use.
- Consider recycling options for the steel pilot if available in your area.

Contact Information for Further Support

For any questions or concerns regarding the STEEL PILOTS STEEL PILOT FOR .38/.357 MUZZLE, please consult the manufacturer or your local distributor for assistance. Ensure to have the product details at hand for quicker support.

Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation while using this product.
