

# 1911 SLIDE FITTING BARS - 1911 SLIDE FITTING BAR .113" (2.8702MM)

[Gunsmith Tools & Supplies](#) > [Handgun Tools](#) > [Slide Tools](#)

## Remove Slide "Play" Accurately & Professionally

Surface ground and hardened tool steel bars in ten thicknesses -

Recommended by agency armorers and top pistolsmiths as the most accurate way to remove vertical slide "play" from the 1911 Auto, its variations and copies. May be slower than the quick-and-dirty methods, but gives an infinitely more accurate and professional job. Basic procedure as follows: Measure gun's slide rail thickness; place closest-sized Slide Fitting Bar in frame "way"; tap frame rail with light hammer to close the "ways" space down to match the slide rail thickness. Complete instructions included.

# Safety Instruction Guide for 1911 Slide Fitting Bars

## Introduction

Thank you for choosing the 1911 Slide Fitting Bars. These bars are designed to help you achieve a precise fit for the slide of your 1911 Auto and its variations. This guide provides essential safety instructions, usage guidelines, and disposal information to ensure your safety and the effective use of this product.

## General Safety Guidelines

- Always read and understand the instructions before using the product.
- Ensure that the work area is clean, welllit, and free of any distractions.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling tools and the fitting bars.
- Keep the product out of reach of children and vulnerable individuals.
- Store the fitting bars in the provided polypropylene storage box when not in use.
- Regularly inspect the bars for any signs of damage or wear before use.

## Specific Safety Precautions for Use

- Handle the slide fitting bars with care to avoid injury.
- Avoid using excessive force when tapping the frame rail; this may cause damage to the firearm or the bars.
- Ensure that the correct thickness of the fitting bar is selected to match the slide rail thickness.
- Do not use the bars for purposes other than those specified in this guide.
- If you experience any discomfort or pain while using the product, stop immediately and seek assistance.

## Instructions for Installation and Usage

### 1. Measure the Slide Rail Thickness

- Use a caliper or a similar measuring tool to accurately measure the thickness of the gun's slide rail.

### 2. Select the Appropriate Slide Fitting Bar

- Choose the closestsized Slide Fitting Bar that matches the measured slide rail thickness.

### 3. Prepare the Frame

- Place the selected Slide Fitting Bar into the frame's "way" where the slide rail will fit.

### 4. Tap the Frame Rail

- Using a light hammer, gently tap the frame rail to close the "ways" space down to match the slide rail thickness.
- Ensure that you are applying even pressure to avoid damaging the frame or the fitting bar.

### 5. Check the Fit

- After tapping, check the fit of the slide on the frame. Repeat the process if necessary, using a different thickness bar if needed.

### 6. Complete Instructions

- Refer to the complete set of instructions included with the product for additional details and tips.

## **Disposal Instructions**

- Dispose of any damaged or worn fitting bars according to local regulations for metal waste.
- Do not dispose of the bars in regular household waste.
- Ensure that any packaging material is recycled or disposed of in an environmentally friendly manner.

## **Contact Information for Further Support**

For any inquiries regarding safety or product usage, please refer to the contact information provided with the product packaging or visit the manufacturer's website.

By following these guidelines, you can ensure a safe and effective experience with your 1911 Slide Fitting Bars. Thank you for your attention to safety, and enjoy your precision fitting process!
