Distinctive Star Shape Gives A Unique Custom Look; Prevents Scratched Frames & Grips

Positive wrench engagement prevents scratches and marks on 1911 Auto frames and custom grips. Miniature star shape adds that distinctive, personal touch to a favorite pistol. Machined and hardened screws fit flush in all factory and aftermarket 1911 Auto grip panels.

Safety Instruction Guide for 1911 TORX® Head Grip Screws

Introduction

Thank you for choosing the 1911 TORX® Head Grip Screws by BROWNELLS. This guide is designed to provide you with essential safety information, installation instructions, and general guidelines to ensure safe and effective use of the product. Please read this guide carefully before use.

General Safety Guidelines

- Ensure that the screws are compatible with your specific 1911 model: Government, Commander, or Officers.
- Inspect the screws for any visible damage before installation. Do not use damaged screws.
- Store the screws in a dry place away from extreme temperatures and moisture.
- Keep the screws and wrench out of reach of children to prevent accidental injury.

Specific Safety Precautions for Use

- Use the appropriate TORX® wrench provided with the screws to prevent slippage and minimize the risk of injury.
- Do not overtighten the screws as this can strip the threads or damage the grip panels.
- Ensure that the grip panels are properly aligned before securing the screws to avoid misalignment.
- If you experience resistance while inserting the screws, stop immediately and check for proper alignment and threading.
- Avoid using power tools for installation, as this may lead to overtightening and damage.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including the TORX® wrench and a clean workspace.
- Ensure that the firearm is unloaded and pointed in a safe direction.

2. Installation Steps:

- Align the grip panel with the frame of the 1911.
- Insert the screws through the grip panel and into the frame.
- Using the TORX® wrench, tighten the screws gently until they are snug. Avoid overtightening.
- Check that the grip panel is secure and does not move.

3. PostInstallation Check:

- After installation, perform a visual inspection to ensure all screws are properly installed.
- Test the grip panel for stability before use.

Disposal Instructions

- Dispose of any unused or damaged screws in accordance with local regulations.
- Do not dispose of screws in general household waste. Instead, consider recycling options if available.

Contact Information for Further Support

For any safety inquiries or additional support related to the 1911 TORX® Head Grip Screws, please refer to the contact details provided with your product packaging or visit the manufacturer's website.

Conclusion

By following these safety instructions and guidelines, you can ensure the safe and effective use of the 1911 TORX® Head Grip Screws. Always prioritize safety when handling firearms and their components. Thank you for your attention to these important details.
