

## **45° MUZZLE/CYLINDER CHAMFERING CUTTER & BRASS PILOT - 45 DEGREE FACING CUTTER & BRASS PILOT FOR .338 MUZZLE**

[Gunsmith Tools & Supplies](#) > [Barrel Tools](#) > [Barrel Chamfering Tool Kits](#)

### **Break Sharp Edges On Rifle & Handgun Muzzles; Get Faster Cylinder Filling On Revolvers**

45° chamfering cutter breaks the edges of the rifling for a clean bullet exit or chamfers revolver cylinder chamber mouths for quick reloads. Includes the cutter, a handle and one pilot, all in a polypropylene box. Interchangeable pilot keeps cutter properly aligned. Purchase extra pilots to use one cutter for many different calibers. Pilots for other calibers available separately. The 45° Cutter supplied in Sets marked with an \* is 5/8" dia. to correctly chamfer the larger barrel and cylinder mouths on those calibers. All other Sets have a 1/2" diameter, 45° cutter.

Select one of the following for other rifle/handgun muzzles, cylinder facing & chamfering tools.

# Safety Instruction Guide for 45° MUZZLE/CYLINDER CHAMFERING CUTTER & BRASS PILOT

## Introduction

Thank you for choosing the 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot. This product is designed to enhance your reloading experience by providing clean bullet exits and efficient cylinder chamber chamfering. To ensure safe and effective use, please read this safety instruction guide carefully.

## General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always inspect the cutter and pilot for any damage before use.
- Keep the product out of reach of children and vulnerable individuals.
- Use personal protective equipment (PPE) such as safety glasses and gloves while operating the cutter.
- Do not use the cutter for any purpose other than its intended use.
- Report any unsafe product conditions or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - Sharp edges: The cutter and pilot have sharp edges that can cause cuts or injuries.
  - Improper handling: Using the cutter incorrectly can lead to accidents or injuries.
- **Avoiding Hazards:**
  - Always handle the cutter by the handle, avoiding contact with the cutting edges.
  - Ensure that your hands are dry and clean before handling the cutter.
  - Do not attempt to modify or alter the cutter in any way.
  - Keep your work area clean and well-lit to avoid accidents.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials before starting.
- Ensure that you are in a safe and suitable environment for using the cutter.

### 2. Using the Cutter:

- Select the appropriate pilot for your caliber.
- Attach the pilot securely to the cutter.
- Hold the cutter firmly by the handle and place the cutting edge against the material to be chamfered.
- Apply gentle pressure and rotate the cutter in a clockwise direction to chamfer the edge.
- After use, detach the pilot and clean the cutter to remove any debris.

### 3. Storage:

- Store the cutter and pilot in the provided polypropylene box to prevent damage.
- Keep the product in a dry place away from extreme temperatures.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations.
- Do not dispose of the cutter or pilot in regular household waste if they are damaged or broken.
- Consider recycling options for materials such as brass and aluminum where available.

## **Contact Information for Further Support**

For any inquiries regarding the safety or use of this product, please contact the appropriate support channels available in your region.

Thank you for using the 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot. Your safety is our priority.
