

## **45° MUZZLE/CYLINDER CHAMFERING CUTTER & BRASS PILOT - BROWNELLS 45 DEG FACING CUTTER & BRASS PILOT FOR .480 RUGER CYL**

[Gunsmith Tools](#) > [Barrel Tools](#) > [Barrel Chamfering Tool Kits](#)

### **Break Sharp Edges On Rifle & Handgun Muzzles; Get Faster Cylinder Filling On Revolvers**

45° chamfering cutter breaks the edges of the rifling for a clean bullet exit or chamfers revolver cylinder chamber mouths for quick reloads. Includes the cutter, a handle and one pilot, all in a polypropylene box. Interchangeable pilot keeps cutter properly aligned. Purchase extra pilots to use one cutter for many different calibers. Pilots for other calibers available separately. The 45° Cutter supplied in Sets marked with an \* is 5/8" dia. to correctly chamfer the larger barrel and cylinder mouths on those calibers. All other Sets have a 1/2" diameter, 45° cutter.

Select one of the following for other rifle/handgun muzzles, cylinder facing & chamfering tools.

# Safety Instructions for 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot

## Introduction

Thank you for choosing the 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot by Brownells. This tool is designed to enhance your reloading experience by ensuring clean bullet exits and efficient reloads. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always inspect the tool before use for any signs of damage or wear.
- Keep the tool out of the reach of children and unauthorized users.
- Use the product only for its intended purpose.
- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves during use.
- Be aware of your surroundings and ensure that the work area is clear of hazards.

## Specific Safety Precautions for Use

- Do not use the chamfering cutter on any materials other than specified calibers.
- Ensure that the cutter is securely attached to the handle before use.
- Avoid excessive force when using the cutter to prevent injury or tool damage.
- Always cut away from your body to minimize the risk of injury.
- If the cutter becomes dull or damaged, discontinue use and replace it immediately.
- Store the product in its original packaging or a secure location when not in use.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary components: the chamfering cutter, handle, and pilot.
- Ensure your work area is clean and welllit.

### 2. Installation:

- Select the appropriate pilot for the caliber you are working with.
- Insert the pilot into the cutter and ensure it is securely locked in place.
- Attach the cutter to the handle.

### 3. Usage:

- Position the cutter at a 45° angle to the cylinder mouth.
- Apply gentle pressure and rotate the cutter to chamfer the edge.
- Check the chamfering progress regularly to avoid overcutting.
- After use, clean the cutter and pilot to remove any debris.

## Disposal Instructions

- Dispose of any damaged or worn components in accordance with local regulations.
- Do not dispose of the tool in regular household waste. Instead, recycle materials where possible.
- Follow local guidelines for the disposal of metal and plastic components.

## **Contact Information for Further Support**

For safety inquiries or additional support regarding the 45° Muzzle/Cylinder Chamfering Cutter & Brass Pilot, please refer to the manufacturer's contact information provided with the product packaging.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure a safe and effective experience with your chamfering cutter.
