# OVERPIN KITS Safety Instructions

## Introduction

Thank you for choosing the OVERPIN KITS. These highquality coil springs are designed for smooth operation and are essential for various applications involving gun pins and plungers. This safety instruction guide provides important information to ensure safe usage, installation, and disposal of the product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in the product specifications.
- Keep the product out of reach of children and vulnerable individuals to prevent accidental injury.
- Always inspect the springs before use for any signs of damage or wear.
- Do not modify or alter the springs in any way, as this may compromise their safety and functionality.
- Store the springs in a dry and safe environment to prevent rust or degradation.

## Specific Safety Precautions for Use

- When handling the springs, wear appropriate protective gear such as gloves and safety glasses to prevent injury.
- Avoid using the springs in environments where they may be exposed to extreme temperatures or corrosive substances.
- Ensure that the springs are installed correctly to avoid malfunction or injury during operation.
- Do not exceed the recommended load limits specified for each spring size to prevent failure.
- If you experience any unusual behavior during operation, cease use immediately and inspect the springs.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools and equipment before starting the installation.
- Review the specifications of your specific OVERPIN KIT to identify the appropriate size of springs for your application.

### 2. Installation

- Carefully remove the springs from the packaging.
- Inspect each spring for any visible defects or damage.
- Align the spring over the pin or plunger as per the manufacturer's instructions.
- Ensure that the spring is seated correctly and securely before proceeding.

### 3. Usage

- Operate the mechanism gently to allow the springs to function smoothly.
- Regularly check the springs during use for signs of wear or damage.
- If a spring becomes damaged or shows signs of fatigue, replace it immediately to ensure continued safe operation.

## Disposal Instructions

- Dispose of the springs in accordance with local regulations for metal products.
- Do not dispose of the springs in regular household waste.
- Consider recycling the springs if facilities are available in your area.

## **Contact Information for Further Support**

For any inquiries regarding safety, usage, or product support, please refer to the manufacturer's contact details provided with your product packaging.
