

ACRAGLAS GEL® RESIN & HARDENER - BROWNELLS ACRAGLAS GEL HARDENER & RESIN SET 64OZ

[Gunsmith Tools](#) > [Stock Work & Finishing](#) > [Stock Bedding & Adhesives](#)

Replenish Acraglas Gel Kits with individual containers or the bundle of Resin & Hardener. Available in various sizes to suit your shop requirements. Nylon Derivatives are formulated into Acraglas Gel and provide greater "thin strength," shock resistance and stability over normal temperature extremes. Slightly less shrinkage than that of Acraglas, which has an amazing 1/10th of 1%. 1-to-1 mixing ratio gives a stable, molecular lattice structure to Acraglas Gel that will not crack, craze or sugar-out as will other 1-to-1 epoxies. Plus, this exclusive, 1-to-1 mix ratio, by volume, simplifies mixing and measuring small amounts accurately. Slightly longer pot life to give the user more time when doing the actual bedding. Longer cure time - The molecular structure of Acraglas Gel has been controlled so that for the first few hours after the epoxy sets it remains slightly flexible, making it easy to trim away excess compound. Readily blends with atomized aluminum, steel and stainless steel particles, thus making it possible for the user to create his own reinforced epoxy whenever such type epoxy is desired. Standard mix for optimum results is 1 part metal particles-to-3 parts mixed Acraglas Gel by volume. Can be dyed the same as Acraglas to match the characteristics of the gun stock being worked on. The above features of Acraglas Gel give you an idea of how completely we fulfilled your requests for a companion product for Acraglas ... The Acraglas Gel stay-in-one-spot feature ... sophisticated molecular structure ... slightly longer pot life and curing time ... the ability to mix in aluminum or steel, make this a product we are proud to offer to you.

Attributes

- Name: [BROWNELLS ACRAGLAS GEL HARDENER & RESIN SET 64OZ](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 081017128
- Mfr. No.: FGA0112RH64
- Size: 64 oz.
- Type: Acraglas Gel
- Quantity: 64
- Delivery weight: 4.06kg
- UPC: 050806013674

ACRAGLAS GEL® RESIN & HARDENER SAFETY INSTRUCTION GUIDE

Introduction

Thank you for choosing ACRAGLAS GEL® RESIN & HARDENER. This guide provides essential safety instructions to ensure the safe use of this product in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure the product is used only for its intended purpose as specified.
- Store the product in a cool, dry place, away from direct sunlight and heat sources.
- Keep out of reach of children and pets.
- Use personal protective equipment (PPE) such as gloves and goggles when handling the product.
- In case of accidental contact with skin or eyes, rinse thoroughly with water and seek medical advice if necessary.
- Dispose of any unused product or waste according to local regulations.

Specific Safety Precautions for Use

- **Ventilation:** Always use ACRAGLAS GEL in a wellventilated area to avoid inhalation of vapors.
- **Skin Protection:** Wear gloves to prevent skin irritation. Do not apply to broken or sensitive skin.
- **Eye Protection:** Use safety goggles to protect your eyes from splashes.
- **Inhalation:** Avoid breathing in vapors or dust. If you experience dizziness or headaches, move to fresh air immediately.
- **Fire Hazard:** Keep away from open flames and sources of ignition. This product is flammable.
- **Mixing Ratio:** Follow the 1to1 mixing ratio precisely to ensure optimal performance and safety.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary materials and tools.
- Ensure the work area is clean and free from any contaminants.

2. Mixing:

- Measure equal parts of the ACRAGLAS GEL resin and hardener.
- Mix thoroughly until a uniform consistency is achieved. Ensure there are no lumps.
- Use within the specified pot life to ensure effectiveness.

3. Application:

- Apply the mixed ACRAGLAS GEL to the desired area using an appropriate tool (e.g., brush or spatula).
- Ensure even coverage and avoid excess application.

4. Curing:

- Allow the product to cure for the recommended time. Do not disturb the application during this period.
- The product will remain slightly flexible for a few hours after application, making it easier to trim

excess material.

5. PostApplication:

- Clean tools and any spills immediately with an appropriate solvent.
- Dispose of any waste according to local regulations.

Disposal Instructions

- Dispose of unused product and containers in accordance with local waste disposal regulations.
- Do not pour down the drain or dispose of in regular household waste.
- Check with local authorities for specific disposal guidelines.

Contact Information for Further Support

For safety inquiries or further assistance, please contact your local distributor or refer to the product packaging for additional information.

By following these safety instructions, you can ensure a safe and effective experience with ACRAGLAS GEL® RESIN & HARDENER. Thank you for prioritizing safety!
