Stainless Steel-Filled Epoxy, Rifle-Bedding Compound

What is STEEL BED? Simply the most-advanced, toughest- ever bedding and stabilizing, steel-bearing, epoxy compound for wood and fiberglass gun stocks. Designed specifically for GUNS, to give the incredible impact resistance that's possible only by surrounding the action with a layer of solid, never-rust stainless steel and the skin-tight, epoxy-matrix fit so vital for superb accuracy. Through a unique blending process, there's actually more stainless steel (by weight) than epoxy in STEEL BED - 2½ times more steel than in competitive products. STEEL BED shrinks less than 1/10 of 1% and won't compress, crumble or "sugar" under the most punishing magnum or semi- auto recoil. Fiberglass stockmakers use it to support the recoil lugs of their lightweight mountain rifles; military armorers and civilian shooters use it under the most grueling conditions without breakdown or deterioration. We tested and abused STEEL BED every way possible and, once we were convinced of its amazing superiority, test samples went to armorers, gunsmiths and competitive shooters. They tested STEEL BED in "real life" situations - it met and exceeded every demand made of it! No cracking, crazing or "sugaring". Group sizes got smaller. All the guns tested - semi-auto, 1000 yard, bolt-action match rifles, benchrest guns and hunting rifles - performed better after bedding with STEEL BED. Because of the extremely high stainless steel content, it's tough to dye STEEL BED to match wood tones but, our latest dyes are so powerful that you can get a useable brown color for wood stocks and a very good black for synthetics. Another choice is to paint the STEEL BED along with the synthetic stock. If you want the best possible color match on a wood stock, you can use STEEL BED for recoil lugs and pillar bedding and ACRAGLAS® or ACRAGLAS GEL® (which are more easily dyed) in those places where the bedding will be visible. STEEL BED really is the ultimate, steel-bearing bedding compound. Besides being incredibly strong and tough, it's very easy to use. The mixing ratio is a simple, 1-part Resin to 1-part Hardener, by volume, and the creamy, no-run texture means STEEL BED will stay where it's put. STEEL BED KIT - (1) 1½ fl. oz. (44 ml) net contents jar Resin; (1) 1½ fl. oz. (44 ml) net contents jar Hardener; (1) 7/8 oz. (26 ml) net contents jar Acraglas Non-Flammable™ Release Agent; (1) Measuring Spoon, (1) Re-useable Poly Mixing Dish, (2) Mixing Sticks (1) Brown Dye Pak, (1) Black Dye Pak and (2) Release Agent Applicators; Instructions. STEEL BED SHOP KIT - (1) 8 fl. oz. (237 ml) net contents jar Resin; (1) 8 fl. oz. (237 ml) net contents jar Hardener; (1) 3 oz. (88.7 ml) net contents jar Acraglas Non-Flammable™ Release Agent; (1) Measuring Spoon Set, (5) Re-useable Poly Mixing Dishes, (25) Mixing Sticks (5) Brown Dye Paks, (5) Black Dye and (25) Release Agent Applicators; Instructions.

Attributes

- Name: [STEEL BED RESIN 8OZ](#)
- Manufacturer: [BROWNEILLS](#)
- Product no.: 081040017
- Mfr. No.: 20231-008
- Size: 8 oz
- Type: Steel Bed

- Quantity: 8
- Delivery weight: 0.522kg
- Shipping height: 64mm
- Shipping width: 89mm
- Shipping length: 89mm
- UPC: 050806101029

STEEL BED KIT Safety Instruction Guide

Introduction

Thank you for choosing the STEEL BED KIT STEEL BED RESIN 8OZ. This product is designed for enhancing the performance of wood and fiberglass gun stocks by providing a durable and stable bedding solution. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified in the product description.
- Keep the product out of reach of children and vulnerable individuals.
- Always work in a wellventilated area to avoid inhaling fumes.
- Wear appropriate personal protective equipment (PPE), including gloves and safety goggles, when handling the product.
- In case of skin contact, wash the affected area with soap and water immediately.
- If the product comes into contact with eyes, rinse thoroughly with water and seek medical attention if irritation persists.
- Dispose of any unused product and packaging according to local regulations.

Specific Safety Precautions for Use

- Do not mix the resin and hardener in quantities larger than specified in the instructions to avoid excessive heat generation.
- Avoid direct skin contact with the mixed product; use tools for application.
- Do not consume the product or use it for any purpose other than its intended use.
- Ensure that the workspace is free from any sources of ignition, as the product may be flammable.
- Store the product in a cool, dry place away from direct sunlight and heat sources.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the surfaces to be bonded are clean, dry, and free from dust or oil.
- Gather all necessary materials, including the STEEL BED KIT components and PPE.

2. Mixing:

- Measure equal parts of the resin and hardener using the provided measuring spoon.
- Mix thoroughly in the reusable poly mixing dish until a uniform color and consistency are achieved.

3. Application:

- Apply the mixed STEEL BED compound to the desired area using the mixing sticks.
- Ensure an even layer that covers all required surfaces for optimal bonding.

4. Curing:

- Allow the product to cure as per the instructions provided in the kit. Avoid disturbing the area during the curing period.

5. Finishing:

- Once cured, inspect the bonded area for any imperfections and sand down if necessary.
- If a color match is required, use the provided dye packs to achieve the desired shade.

Disposal Instructions

- Dispose of any unused or expired product in accordance with local regulations.
- Do not dispose of the product in household waste. Check with your local waste management authority for proper disposal methods.
- Clean all tools and mixing equipment with appropriate solvents before disposal.

Contact Information for Further Support

For any inquiries regarding the STEEL BED KIT or safety concerns, please consult the product packaging or your retailer for contact information. It is crucial to have a point of contact for any safetyrelated questions or product issues.

By following these guidelines, you can ensure the safe and effective use of the STEEL BED KIT. Thank you for your attention to safety and for choosing our product.
