Safety Instruction Guide for PIPE BURNERS BROWNELLS 1 5/8" O.D. BURNER PIPE

Introduction

Thank you for choosing the PIPE BURNERS BROWNELLS 1 5/8" O.D. BURNER PIPE. This product is designed specifically for use in bluing tanks, providing maximum efficiency while ensuring safety. This guide outlines important safety information and instructions to help you use the burner safely and effectively.

General Safety Guidelines

- Always read and understand the instructions before using the product.
- Ensure that the product is used in accordance with local regulations and safety standards.
- Keep the burner out of reach of children and individuals who may not understand its operation.
- Regularly inspect the burner for any signs of damage or wear before each use.
- Use the burner only with the specified gas types: NATURAL or LP GAS.
- Maintain proper ventilation in the area where the burner is used to prevent gas accumulation.
- Do not modify the burner or its components in any way.

Specific Safety Precautions for Use

- Ensure the gas supply is turned off before connecting or disconnecting the burner.
- Check all connections for leaks using a soapy water solution. If bubbles form, there is a leak.
- Avoid using the burner in enclosed spaces without adequate ventilation.
- Do not leave the burner unattended while in use.
- Use appropriate personal protective equipment (PPE), including gloves and safety goggles.
- Be cautious of hot surfaces; allow the burner to cool down before handling.
- In case of a gas leak, immediately turn off the gas supply and ventilate the area.

Instructions for Installation and Usage

1. Installation

- Ensure that the installation area is clean and free from flammable materials.
- Connect the burner to the gas supply, ensuring all fittings are tight and secure.
- Use the appropriate orifice cap for the type of gas being used (Natural Gas or LP Gas).
- Install the Teevalve to control gas flow effectively.

2. Usage

- Turn on the gas supply slowly.
- Use a long lighter or match to ignite the burner from a safe distance.
- Adjust the gas flow using the Teevalve to achieve the desired flame size.
- Monitor the burner during operation and adjust as necessary for efficiency.

3. Shutdown Procedure

- Turn off the gas supply completely after use.
- Allow the burner to cool down before cleaning or storing.
- Disconnect the burner from the gas supply if it will not be used for an extended period.

Disposal Instructions

- Dispose of the burner in accordance with local regulations regarding gas appliances.
- Ensure that the burner is completely disconnected from any gas supply before disposal.
- Recycle components where possible, following local recycling guidelines.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the PIPE BURNERS BROWNELLS 1 5/8" O.D. BURNER PIPE, please reach out to your local distributor or manufacturer.

Remember to stay informed about product recalls and safety updates through the EU's Safety Gate platform. Your safety is our priority, and we encourage you to report any unsafe products or incidents to the appropriate authorities.
