Safety Instruction Guide for Boiled Linseed Oil

Introduction

Thank you for choosing Boiled Linseed Oil. This guide provides essential safety instructions to ensure the safe use of this product. Boiled Linseed Oil is a clear, doubleboiled, and doublefiltered oil designed for wood finishing. Please read this guide carefully to understand the potential hazards and how to use the product safely.

General Safety Guidelines

- Always store the product in a cool, dry place away from direct sunlight and heat sources.
- Keep out of reach of children and pets.
- Use the product only for its intended purpose as a wood finish.
- Dispose of any unused product responsibly and according to local regulations.
- Regularly check for product recalls on the EU Safety Gate platform.

Specific Safety Precautions for Use

- Ensure adequate ventilation in the area where the product is being used to avoid inhalation of fumes.
- Avoid contact with skin and eyes. Wear protective gloves and safety goggles when handling the product.
- Do not ingest the product. If swallowed, seek medical attention immediately.
- In case of skin contact, wash thoroughly with soap and water. If irritation persists, consult a physician.
- If the product comes into contact with eyes, rinse immediately with plenty of water and seek medical advice.
- Keep away from open flames and sources of ignition, as the product is flammable.
- Do not mix with other chemicals unless specified by the manufacturer.

Instructions for Installation and Usage

1. Preparation:

- Ensure the surface to be treated is clean, dry, and free from old finishes.
- Shake the container well before use to ensure even consistency.

2. Application:

- Use a brush, cloth, or spray to apply a thin, even coat of Boiled Linseed Oil to the surface.
- Allow the oil to penetrate the wood for 1530 minutes. Wipe off any excess oil with a clean cloth.
- For best results, apply additional coats as needed, allowing each coat to dry for 46 hours.

3. Curing:

- Allow the treated surface to cure fully. This may take several days depending on the environmental conditions.

4. CleanUp:

- Clean brushes and tools with mineral spirits or paint thinner immediately after use.
- Dispose of any rags or materials soaked with the product in accordance with local hazardous waste regulations to prevent fire hazards.

Disposal Instructions

- Dispose of any remaining product in accordance with local regulations regarding hazardous waste.

- Do not pour the product down the drain or into water bodies.
- For disposal of containers, check with local waste management services for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or concerns regarding the product, please contact the manufacturer or check the EU Safety Gate platform for updates and recalls.

Thank you for following these safety instructions. Your safety and satisfaction are our top priorities.
