

SILICON CARBIDE ABRASIVE COMPOUND - BROWNELLS SILICON CARBIDE ABRASIVE COMPOUND #800 GRIT

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Abrasives](#) > [Lapping Compounds](#)

Sharp-Edged Silicon Carbide Self-Lubricating Petroleum Base

The very best abrasive compound for "hard fitting" two pieces of steel. Stands up to continued fitting even on hardened and heat-treated steel. Silicon carbide grit combined with a thick, long lasting lubricant breaks down into smaller and smaller sharp-edged particles to keep cutting longer than aluminum oxide compounds. For use on steel only. Remove with solvent.

Attributes

- Name: [BROWNELLS SILICON CARBIDE ABRASIVE COMPOUND #800 GRIT](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 083045800
- Mfr. No.: 5A51804
- Grit: 800
- Delivery weight: 0.136kg
- Shipping height: 41mm

Safety Instruction Guide for Silicon Carbide Abrasive Compound

Introduction

Thank you for choosing Brownells Silicon Carbide Abrasive Compound #800 Grit. This product is designed for "hard fitting" two pieces of steel and is suitable for use on hardened and heat-treated steel. To ensure safe and effective use, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always use this product in a well-ventilated area to avoid inhalation of dust.
- Wear appropriate personal protective equipment (PPE) such as gloves, safety goggles, and a dust mask to minimize exposure to abrasive particles.
- Keep the product out of reach of children and vulnerable individuals.
- Store the compound in a cool, dry place away from direct sunlight and heat sources.
- Regularly check for any updates regarding product safety and recalls on the EU Safety Gate platform.

Specific Safety Precautions for Use

- Avoid contact with skin and eyes. In case of contact, rinse immediately with plenty of water and seek medical attention if irritation persists.
- Do not ingest the compound. If swallowed, seek medical advice immediately.
- Be cautious of dust generated during use. Use a dust extraction system or wet methods to minimize dust.
- Ensure that the work area is free of flammable materials, as the compound may pose a fire hazard if exposed to heat sources.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the surfaces to be fitted are clean and free from any debris.
- Shake the container well before use to ensure proper mixing of the compound.

2. Application:

- Apply a thin layer of the abrasive compound to the surfaces that require fitting.
- Use a suitable tool or method to fit the two pieces of steel together, applying consistent pressure.
- Monitor the fitting process closely to avoid excessive material removal.

3. PostUse:

- After achieving the desired fit, remove any excess compound using a solvent.
- Clean the work area thoroughly to remove any residual dust or compound.

Disposal Instructions

- Dispose of any unused or excess compound in accordance with local regulations for hazardous waste.
- Do not pour the compound down drains or dispose of it in regular household waste.
- Ensure that any containers are completely empty before recycling or disposing of them.

Contact Information for Further Support

For any safety inquiries or productrelated questions, please refer to the contact information provided on the product packaging or visit the manufacturer's website.

By following these guidelines, you can ensure a safe and effective experience with Brownells Silicon Carbide Abrasive Compound #800 Grit. Thank you for your attention to safety.
