

# STANDARD LINE NYLON RIFLE BORE BRUSHES - BROWNELLS

## STANDARD LINE BRUSH, NYLON, 8MM RIFLE, 3 PACK

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Brushes](#)

### Solvent Resisting Nylon

Since darn near as many bore brushes get used in the shop as get sold, we've packed these custom-made, top quality brushes in bulk paks to make them more convenient and less expensive. The shank is one-piece, looped and wound (not two, twisted together and chopped off). Nylon Bore Brush - New generation bore cleaners attack copper and bronze-based bullet jacket fouling aggressively and are just as hard on bronze cleaning brushes. Our nylon brushes stand up to these super cleaners and won't cause accuracy-ruining scratches. One-piece, looped and wound steel shanks (except Black Powder (BP) series, .17 caliber, and .20 caliber, which have brass shanks). SPECS: Bristles: Available in nylon. Shank: Steel, looped and wound. Overall length: 3.27" (8.3cm) Threads: .17 and .20 caliber 5-40 threads, all others 8-32 thread.

# Safety Instruction Guide for STANDARD LINE NYLON RIFLE BORE BRUSHES

## Introduction

Thank you for choosing the STANDARD LINE NYLON RIFLE BORE BRUSHES by Brownells. This guide provides essential safety instructions and information to ensure the safe and effective use of your bore brushes. Please read this guide carefully before use.

## General Safety Guidelines

- Ensure that all users are aware of the safety instructions before using the product.
- Store the bore brushes in a safe place, out of reach of children and vulnerable individuals.
- Inspect the bore brushes before each use for any signs of damage or wear.
- Do not use the bore brushes for any purpose other than their intended use.
- Follow all local regulations regarding the use and disposal of cleaning products and tools.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when using bore brushes.
- Avoid using excessive force when cleaning to prevent damage to the bore brush or firearm.
- Do not use the bore brushes with any abrasive substances that may cause damage.
- Ensure that the firearm is unloaded and pointed in a safe direction before using the bore brushes.
- Keep fingers and other body parts away from the brush while in use to avoid injury.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure the firearm is completely unloaded.
- Gather all necessary cleaning supplies, including the bore brush.

### 2. Installation

- Select the appropriate caliber bore brush for your firearm.
- Attach the bore brush to a cleaning rod with a compatible thread size (e.g., .17 and .20 caliber 540 threads, all others 832 thread).

### 3. Usage

- Insert the bore brush into the firearm's barrel from the breech end (if applicable).
- Gently rotate the cleaning rod while pushing the brush through the barrel to ensure thorough cleaning.
- Repeat the process as necessary until the barrel is clean.
- After use, remove the bore brush and clean it according to the manufacturer's recommendations.

### 4. PostUse Care

- Clean the bore brush with a suitable cleaning solvent and allow it to dry completely.
- Store the bore brush in a dry place, away from moisture and direct sunlight.

## **Disposal Instructions**

- Dispose of the bore brushes in accordance with local regulations regarding cleaning supplies and tools.
- Do not dispose of the bore brushes in regular household waste if they are contaminated with cleaning solvents or chemicals.

## **Contact Information for Further Support**

For any questions or concerns regarding the use and safety of your STANDARD LINE NYLON RIFLE BORE BRUSHES, please refer to the manufacturer's website or contact their customer support for assistance.

By following these safety guidelines and instructions, you can ensure a safe and effective cleaning process for your firearms. Thank you for prioritizing safety and responsible use.
