

STANDARD LINE NYLON HANDGUN BORE BRUSHES - BROWNELLS STANDARD LINE BRUSH, NYLON, .44/.45 CALIBER PISTOL, 3 PACK

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Brushes](#)

Since darn near as many bore brushes get used in the shop as get sold, we've packed these custom-made, top quality brushes in bulk paks to make them more convenient and less expensive. The shank is one-piece, looped and wound (not two, twisted together and chopped off). Nylon Bore Brush - New generation bore cleaners attack copper and bronze-based bullet jacket fouling aggressively and are just as hard on bronze cleaning brushes. Our nylon brushes stand up to these super cleaners and won't cause accuracy-ruining scratches. One-piece, looped and wound steel shanks (except Black Powder (BP) series, .17 caliber, and .20 caliber, which have brass shanks). SPECS: Bristles: Available in nylon. Shank: Steel, looped and wound. Overall Length: 2-1/8 (5.4cm) Thread: 17 caliber 5-40 thread, all others 8-32 thread

Safety Instruction Guide for STANDARD LINE NYLON HANDGUN BORE BRUSHES

Introduction

Thank you for choosing the STANDARD LINE NYLON HANDGUN BORE BRUSHES by BROWNELLS. This guide provides important safety information, usage instructions, and disposal guidelines to ensure your safety and the effective use of this product. Please read this guide carefully before using the bore brushes.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose, which is cleaning handgun barrels.
- Always keep the bore brushes out of reach of children and vulnerable individuals.
- Inspect the brushes before each use. Do not use if there are signs of damage or wear.
- Follow all local laws and regulations regarding the use of cleaning products and firearms.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use protective eyewear when cleaning firearms to prevent injury from debris or cleaning solutions.
- Avoid using excessive force when cleaning to prevent damage to the firearm or the brush.
- Do not use the bore brushes with any cleaning solvents that are not recommended by the firearm manufacturer.
- Ensure that the firearm is unloaded and pointed in a safe direction before beginning any cleaning process.
- Keep the cleaning area wellventilated to avoid inhaling fumes from cleaning products.
- Do not attempt to modify or alter the bore brushes in any way.

Instructions for Installation and Usage

1. Preparation:

- Ensure that your firearm is completely unloaded and in a safe condition.
- Gather all necessary cleaning supplies, including the bore brush, cleaning solvent, and cleaning rod.

2. Attaching the Bore Brush:

- Select the appropriate bore brush for your firearm caliber (44 Caliber or 45 Caliber).
- Thread the bore brush onto the cleaning rod. Ensure it is securely attached.

3. Using the Bore Brush:

- Apply a small amount of cleaning solvent to the bore brush.
- Insert the bore brush into the barrel from the chamber end (if applicable).
- Push the brush through the barrel in a smooth motion, then pull it back out. Repeat this process several times to ensure thorough cleaning.
- After cleaning, wipe the barrel with a clean, dry cloth to remove any remaining solvent or debris.

4. PostUse Care:

- Clean the bore brush with warm water and mild soap after each use to prolong its lifespan.
- Store the bore brushes in a dry place, away from direct sunlight and moisture.

Disposal Instructions

- Dispose of any worn or damaged bore brushes in accordance with local waste disposal regulations.
- Do not dispose of the brushes in regular household waste if they are contaminated with hazardous cleaning solvents.
- Consider recycling options where available.

By following these guidelines, you can ensure a safe and effective cleaning experience with your bore brushes. Thank you for prioritizing safety and proper care in your firearm maintenance.
