Durable Grips for Your Fighting Pistol

All 1911 owners looking to pair their battle-ready handgun with grips that'll be just as durable as their fighting pistol have found the answer in Labyrinth 1911 Grips. Several options are available in the lineup of handgun grips, each with a specially textured finish designed to anchor the gun into the hands of shooters during rapid-fire strings. For traditionalists, Labyrinth 1911 Grips are available from machined Cocobolo wood, one of the hardest and densest woods available today. For those looking to add something stronger and more impervious to their guns, grips are also available in all-black phenolic, a resin-based material known for its durability. Grip fits are available for all Government handguns, as well as specially machined fits for 1911s outfitted with an Ed Brown-style bobtail frame.

Safety Instruction Guide for 1911 Labyrinth Grips

Introduction

Thank you for choosing the 1911 Labyrinth Grips by Ed Brown. These grips are designed to enhance the performance and handling of your 1911 Government handgun. This safety instruction guide provides essential information on the safe use, installation, and maintenance of your grips in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the grips are compatible with your specific model of the 1911 Government handgun.
- Always handle your firearm in a safe manner, following all applicable laws and regulations.
- Regularly inspect the grips for any signs of wear or damage before each use.
- Store your handgun and grips in a secure location, out of reach of children and unauthorized users.
- If you notice any defects or issues with the grips, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- When installing or removing the grips, ensure the firearm is unloaded and the magazine is removed.
- Avoid using excessive force when tightening screws to prevent damage to the grips or firearm.
- Be cautious of sharp edges on the grips, especially during installation.
- Do not modify the grips in any way, as this may compromise safety and performance.
- If you experience any difficulty during installation, consult a qualified gunsmith for assistance.

Instructions for Installation and Usage

Installation Steps

1. Prepare the Handgun

- Ensure that the handgun is unloaded and the magazine is removed.
- Place the handgun on a stable surface.

2. Remove Existing Grips

- Use an appropriate screwdriver to remove the screws securing the existing grips.
- Carefully lift the old grips away from the frame.

3. Install New Grips

- Align the new Labyrinth grips with the frame of the handgun.
- Insert the screws into the holes and handtighten them.
- Use the screwdriver to securely fasten the screws, being careful not to overtighten.

4. Final Check

- Ensure that the grips are securely attached and that there is no movement.
- Perform a safety check on the firearm to ensure it is functioning properly.

Usage Tips

- Practice handling your firearm with the new grips to become familiar with their feel and performance.
- Maintain a firm grip during use, especially during rapidfire strings.

Disposal Instructions

- Dispose of any old grips or packaging materials in accordance with local waste disposal regulations.
- If the grips are damaged beyond use, consider recycling materials where possible.
