

# PEE DEE THREAD MEASURING WIRES - PEE DEE THREAD WIRE SET

[Gunsmith Tools & Supplies](#) > [General Gunsmith Tools](#) > [Machinist Accessories](#)

Quickly and accurately measures pitch diameters of external threads—a must-have when cutting or checking threads on precision screws. Accurate to within  $+\text{-} .0001$ " along the center 1" section. Measures the following pitch sizes: 3 to 48 tpi, .5mm to 6mm pitch, and Acme 3 to 16 tpi. Includes plastic storage sleeve, conversion chart and instructions. Requires micrometer, not included.

## Attributes

- Name: [PEE DEE THREAD WIRE SET](#)
- Manufacturer: [FISHER MACHINE SHOP](#)
- Product no.: 100004430
- Mfr. No.: 16
- Delivery weight: 0.136kg
- Shipping height: 13mm
- Shipping width: 94mm
- Shipping length: 97mm

# PEE DEE THREAD MEASURING WIRES Safety Instruction Guide

## Introduction

Thank you for choosing the PEE DEE THREAD MEASURING WIRES. This guide provides essential safety instructions and information to ensure the safe and effective use of this product. Please read this guide carefully before using the measuring wires.

## General Safety Guidelines

- Product Safety: Ensure the safe use of the measuring wires by following these guidelines.
- Enhanced Recalls: Be aware of standardized recall notices and remedies for any dangerous products.
- Online Shopping: If purchased online, ensure the seller complies with safety requirements.
- Special Consumer Focus: Extra precautions should be taken when used by vulnerable groups, such as children.
- EU Contact Point: For safety inquiries, make sure to reach out to the designated EU contact point.
- Rapid Alerts: Stay informed on product safety updates via the EU's Safety Gate system.

## Specific Safety Precautions for Use

- Always handle the measuring wires with care to avoid injury.
- Do not use the measuring wires for any purpose other than measuring pitch diameters of external threads.
- Ensure that the measuring wires are stored in the provided plastic storage sleeve when not in use to prevent damage.
- Keep the measuring wires out of reach of children to avoid accidental injury.
- Inspect the measuring wires for any signs of wear or damage before each use. Do not use damaged wires.
- Use a micrometer (not included) for accurate measurements, and ensure it is calibrated properly.
- Follow all instructions carefully to avoid potential hazards associated with incorrect usage.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools, including a micrometer for measurement.
- Ensure a clean and welllit workspace.

### 2. Using the Measuring Wires:

- Select the appropriate wire size based on the pitch size you need to measure.
- Insert the measuring wire into the thread of the screw you are measuring.
- Use the micrometer to measure the diameter at the center 1" section of the wire.
- Ensure the measurement is accurate to within +/- .0001".

### 3. After Use:

- Carefully remove the measuring wire from the thread.
- Clean the measuring wires if necessary to remove any debris or contaminants.
- Store the measuring wires in the plastic storage sleeve to protect them from damage.

## **Disposal Instructions**

- Dispose of the measuring wires responsibly in accordance with local regulations.
- Do not dispose of the measuring wires in regular household waste.
- If the measuring wires are damaged or no longer usable, contact your local waste management service for proper disposal methods.

## **Contact Information for Further Support**

For any safety inquiries or further information regarding the PEE DEE THREAD MEASURING WIRES, please refer to the designated EU contact point.

Thank you for your attention to these safety instructions. Your safety is our priority, and we hope you enjoy using the PEE DEE THREAD MEASURING WIRES.
