

S&W M&P ACTION ENHANCEMENT COMPONENTS - APEX TACTICAL SPECIALTIES INC DUTY/CARRY KIT, .45 ACP, M&P M2.0 IN 9MM/.40

[Handgun Parts](#) > [Trigger Group Parts](#) > [Performance Enhancing Kits](#)

Drop-In Upgrade Parts Improve Trigger Pull For Competition Or Carry

Drop-in replacements for factory components enhance reliability and optimize the performance of your M&P for different applications. Installing the Competition Kit yields a smooth, consistent, trigger pull of slightly less than 3 lbs., with shorter over-travel and faster reset than a factory-stock M&P. Retain the factory sear spring to get a slightly heavier 3½ lb. pull. Designed for IDPA, USPSA, Steel Challenge, 3-gun, and similar types of action shooting competition. Not for duty, carry, or self-defense applications. Duty/Carry Kit delivers a smooth, consistent 5½ lb. trigger pull with less over-travel and shorter reset. Improves performance of your pistol while maintaining its safety features for daily carry. Retain the factory sear spring to get a slightly lighter 5 lb. pull. Both kits engineered for a drop-in fit, though gunsmith installation is recommended.

Attributes

S&W M&P ACTION ENHANCEMENT COMPONENTS APEX TACTICAL SPECIALTIES INC DUTY/CARRY KIT Safety Instruction Guide

Introduction

Thank you for choosing the S&W M&P Action Enhancement Components Apex Tactical Specialties Inc Duty/Carry Kit. This guide provides essential safety instructions to ensure the proper and safe use of this product. It is crucial to understand these safety guidelines to maximize your experience and minimize any risks associated with the installation and use of the kit.

General Safety Guidelines

- **Product Safety:** This kit is designed for enhancing the performance of your M&P pistol. Ensure that you understand its function and limitations before use.
- **Age Restrictions:** This product is intended for adult users. Keep it out of reach of children and unauthorized individuals.
- **Hazard Awareness:** Be aware of potential hazards associated with firearm modifications, including unintended discharges, malfunctions, or safety feature compromises.
- **Use in Suitable Contexts:** The Duty/Carry Kit is designed for daily carry and does not support competition use. Use the appropriate kit for your specific needs.
- **Regular Maintenance:** Regularly inspect your firearm and components for wear and damage. Replace any damaged parts immediately.

Specific Safety Precautions for Use

- **Installation Safety:**
 - Ensure the firearm is unloaded before beginning installation.
 - Use appropriate tools and follow the installation instructions carefully.
 - If unsure about the installation process, consult a qualified gunsmith.
- **Trigger Pull Weight:** Understand that modifying the trigger pull weight can affect firearm handling. Ensure you are comfortable with the new trigger pull weight before using the firearm.
- **Testing:** After installation, conduct a function check to ensure all components are working correctly. Do not rely solely on the modifications without testing.
- **Avoiding Malfunctions:** Always retain the factory sear spring if you require a heavier trigger pull to avoid potential malfunctions.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and components for installation.
- Ensure you are in a safe and well-lit environment.

2. Installation Steps:

- **Remove the Factory Components:**
 - Ensure the firearm is unloaded.
 - Disassemble the firearm according to the manufacturer's instructions.
- **Install the Duty/Carry Kit Components:**
 - Replace the factory sear with the hard sear from the kit.
 - Install the Ultimate Striker Block.

- Use the included sear springs (different sizes) as per your preference for trigger pull weight.
- Install the trigger return spring and the competition striker spring (if applicable).
- Use the aluminum slave pin for proper installation of the trigger return spring.
- **Reassemble the Firearm:**
 - Carefully reassemble the firearm following the manufacturer's guidelines.

3. **Function Check:**

- After installation, perform a function check:
 - Ensure the trigger operates smoothly.
 - Check the reset and overtravel of the trigger.

4. **Usage:**

- Always follow safe firearm handling practices.
- Regularly check the performance of the installed components during practice sessions.

Disposal Instructions

- Dispose of any old or replaced components according to local regulations.
- Do not dispose of components in a manner that could pose a risk to others or the environment.

Contact Information for Further Support

For any questions regarding safety, installation, or product performance, please consult a qualified gunsmith or reach out to the manufacturer directly for assistance.

By following these guidelines, you can ensure a safer and more effective use of the S&W M&P Action Enhancement Components Apex Tactical Specialties Inc Duty/Carry Kit. Always prioritize safety and responsible firearm ownership.
