

GUIDE ROD LASER SIGHT - LASERMAX GUIDE ROD RED LASER BERETTA 92/96

[Optics & Mounting](#) > [Electronic Sights](#) > [Laser Sights](#)

Fast, Instinctive Sighting System Completely Contained Within Gun

There's a reason LaserMax Guide Rod lasers are as rugged as your gun: they sit inside it. Developed with close guidance from law enforcement officers, it's a smart design patented almost two decades ago and has worked perfectly ever since. Even today, these Guide Rods are still the most technically advanced, hardened laser systems on the market. User installed in minutes, the laser sits just under the bore giving you the closest point-of-aim and point-of-impact. Five story drops, 20-ton crushes, freezing in ice, roasting in flames, drowning in watery depths of 66 feet, 20,000 round firings. These Guide Rods lasers survive all of these tests and more. The convenient on/off switch is easily activated, whether you are right or left handed, without altering your grip. The activation switch is exactly where you index finger should be for safe operation, without interfering with the laser beam. Keeping your favorite grips and holster are critical to your shooting accuracy, comfort and safety. That's why LaserMax Guide Rod lasers preserve the dimensions of you gun, ensuring a perfect fit.

Safety Instruction Guide for LaserMax Guide Rod Laser Sight

Introduction

Thank you for choosing the LaserMax Guide Rod Laser Sight for your Beretta 92/96. This product is designed to enhance your shooting accuracy and safety. Please read this safety instruction guide carefully to ensure safe and effective use of your laser sight.

General Safety Guidelines

- Always treat your firearm as if it is loaded.
- Ensure your laser sight is installed correctly before use.
- Avoid pointing the laser at anyone's eyes.
- Keep the laser out of reach of children and unauthorized users.
- Regularly inspect the laser sight for any signs of damage.
- Follow all local laws and regulations regarding laser devices.

Specific Safety Precautions for Use

- **Hazard Awareness:** Be aware that the laser beam can cause eye damage. Never direct the laser at people or reflective surfaces.
- **User Installation:** Only install the laser sight if you are familiar with firearm maintenance. If unsure, seek professional assistance.
- **Grip Safety:** Ensure that your grip does not obstruct the laser beam during operation.
- **Battery Safety:** Use only the recommended batteries. Dispose of old batteries properly to prevent leaks and environmental damage.

Instructions for Installation and Usage

Installation

1. **Unpack the Product:** Carefully remove the laser sight from its packaging.
2. **Check Compatibility:** Ensure that your firearm model is compatible with the LaserMax Guide Rod Laser Sight. This product is not compatible with Beretta 92A1 or 96A1 models.
3. **Remove the Existing Guide Rod:** Follow your firearm's manual to safely remove the existing guide rod.
4. **Install the Laser Sight:** Insert the LaserMax Guide Rod Laser Sight into the guide rod housing according to the manufacturer's instructions.
5. **Secure the Installation:** Ensure that the laser sight is firmly in place and that all components are securely fastened.

Usage

1. **Activate the Laser:** Use the on/off switch to activate the laser. The switch is designed for easy access with either hand.
2. **Align the Laser:** Aim the laser at your target to ensure proper alignment with your point of aim.
3. **Practice Safe Handling:** Always keep the firearm pointed in a safe direction when handling or adjusting the laser sight.
4. **Regular Checks:** Periodically check the laser alignment and functionality before use.

Disposal Instructions

- Dispose of the LaserMax Guide Rod Laser Sight in accordance with local regulations for electronic waste.

- Remove batteries before disposal and recycle them according to local guidelines.

Contact Information for Further Support

For any safety inquiries or support, please refer to the manufacturer's contact details provided with your product packaging.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with your LaserMax Guide Rod Laser Sight. Remember, safety is paramount when handling firearms and laser devices. Always stay informed and practice responsible usage.
