LOADALL II Shotgun Presses Safety Instruction Guide

Introduction

Thank you for choosing the LOADALL II Shotgun Press by Lee Precision. This guide provides essential safety instructions to ensure the safe and effective use of your shotgun press. Please read this manual thoroughly before use to familiarize yourself with safety guidelines and operating procedures.

General Safety Guidelines

- Ensure that the shotgun press is used only for its intended purpose and in accordance with this manual.
- Always handle ammunition and reloading components with care to prevent accidents.
- Keep the workspace clean and organized to minimize risks of accidents.
- Store the shotgun press in a secure location, out of reach of children and unauthorized users.
- Regularly inspect the shotgun press for any signs of wear or damage. Do not use if damaged.
- Always wear appropriate personal protective equipment, including safety glasses and hearing protection, when reloading ammunition.
- Be aware of your surroundings and ensure that no one is in the vicinity when operating the shotgun press.
- Report any unsafe conditions or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Do not exceed the maximum shell length of 3 inches as specified in the product description.
- Always ensure that the primer catcher is securely in place before starting the reloading process.
- Use only the bushings provided with the shotgun press for shot and powder to ensure accuracy and safety.
- Keep fingers and hands clear of moving parts while operating the shotgun press.
- Do not attempt to modify the shotgun press in any way, as this may compromise safety and functionality.
- If you notice any unusual noises or malfunctions during operation, stop immediately and inspect the equipment.

Instructions for Installation and Usage

1. Setup:

- Place the shotgun press on a stable, flat surface to ensure proper operation.
- Secure the shotgun press to the surface using the appropriate mounting hardware if necessary.

2. Loading Bushings:

- Insert the desired shot and powder bushings into the designated slots.
- Ensure they are seated properly and securely.

3. Shell Positioning:

- Position the shell in the recess provided at each station for proper alignment.
- Ensure that the shell is seated correctly before proceeding to the next step.

4. Priming:

- Open the primer catcher door and check that it is empty before starting.

- Load primers into the designated area as per the instructions provided in the manual.

5. Reloading Process:

- Follow the stepbystep reloading instructions provided in the manual.
- Monitor the process closely and ensure that all components are functioning correctly.

6. Finishing Up:

- Once reloading is complete, check that all materials are safely stored.
- Empty the primer catcher and clean the shotgun press as needed.

Disposal Instructions

- Dispose of any spent primers, unused powder, and other reloading components in accordance with local regulations.
- Do not dispose of hazardous materials in regular household waste.
- Contact local waste disposal facilities for guidance on the proper disposal of hazardous materials.

Contact Information for Further Support

For any questions or concerns regarding the use of the LOADALL II Shotgun Press, please refer to the official Lee Precision website or contact your local distributor for assistance. For safety inquiries, you can also reach out to your local consumer safety authority.

Thank you for prioritizing safety while using the LOADALL II Shotgun Press. Your adherence to these guidelines helps ensure a safe reloading experience.
