INGOT MOLD LEE PRECISION LEE INGOT MOULD

Safety Instructions

Introduction

Thank you for choosing the Lee Ingot Mold. This product is designed for casting 1/2 lb. and 1 lb. ingots, made from rustproof aluminum. To ensure safe and effective use, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always use the ingot mold in a wellventilated area to avoid inhalation of fumes.
- Keep the mold away from children and pets to prevent accidents.
- Inspect the mold for any damage before each use. Do not use if damaged.
- Use personal protective equipment (PPE) such as gloves and safety glasses when handling molten materials.
- Be aware of your surroundings and ensure that the work area is free from flammable materials.

Specific Safety Precautions for Use

- Ensure the mold is placed on a stable, heatresistant surface before use.
- Do not exceed the recommended temperature limits for pouring materials into the mold.
- Avoid pouring molten metal directly from a height to prevent splashing.
- Never leave the mold unattended while in use.
- Allow the mold to cool completely before handling or cleaning.

Instructions for Installation and Usage

1. Preparation

- Clean the ingot mold with a suitable solvent to remove any dust or residues.
- Apply a thin layer of mold release agent to the inside of the mold to facilitate easy release of the ingots.

2. Setting Up the Mold

- Place the mold on a flat, heatresistant surface.
- Ensure that the mold is secure and stable to prevent tipping during use.

3. Pouring Metal

- Heat the metal to the appropriate temperature for pouring.
- Carefully pour the molten metal into the mold, ensuring not to overfill.
- Allow the metal to cool and solidify according to the specific material's guidelines.

4. Removing Ingots

- Once the metal has cooled completely, gently remove the ingots from the mold.
- If necessary, use a soft mallet to tap the mold lightly to release the ingots.

5. Cleaning the Mold

- After use, clean the mold with warm water and a soft brush.
- Avoid using abrasive materials that could damage the mold's surface.

Disposal Instructions

- Dispose of any waste materials in accordance with local regulations.
- Do not dispose of the mold in regular household waste if it is damaged.
- Contact your local waste management facility for proper disposal instructions.

Contact Information for Further Support

For safety inquiries or further assistance regarding the Lee Ingot Mold, please contact your local distributor or refer to the manufacturer's website for support resources.

By following these safety instructions, you can ensure a safe and enjoyable experience while using the Lee Ingot Mold. Always prioritize safety and adhere to the guidelines provided. Thank you for your attention to these important safety measures.
