# QUICK CHANGE POWDER MEASURE Safety Instruction Guide

## Introduction

Thank you for choosing the RCBS Quick Change Powder Measure. This product is designed to provide a safe and efficient way to measure powder for reloading ammunition. To ensure your safety and the proper use of this product, please read and follow the guidelines outlined in this safety instruction guide.

## General Safety Guidelines

- Always use the product in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the product regularly for any signs of wear or damage.
- Do not use the product if it is damaged or malfunctioning.
- Ensure that your workspace is clean and free from distractions when using the powder measure.
- Be aware of your surroundings and ensure that no one is in close proximity while operating the powder measure.

## Specific Safety Precautions for Use

- Use only the recommended types of powder with this powder measure.
- Do not exceed the maximum powder capacity of the hopper.
- Always ensure that the powder hopper is securely attached before use.
- Avoid inhaling powder dust; use in a wellventilated area.
- Do not attempt to modify or alter the powder measure in any way.
- Ensure that the drain attachment is properly connected before use to prevent spills.
- Always store powder in a cool, dry place away from direct sunlight and heat sources.

## Instructions for Installation and Usage

### Installation

1. **Choose a Suitable Location:** Select a stable, flat surface for mounting the powder measure.
2. **Assemble the Powder Measure:**
  - Attach the powder hopper to the base securely.
  - Ensure that the small and large metering assemblies are properly installed according to the manufacturer's instructions.
3. **Connect the Drain Attachment:** Make sure the drain attachment is securely connected to allow for easy emptying of the hopper.

### Usage

1. **Loading Powder:**
  - Open the powder hopper lid and fill it with the appropriate smokeless powder.
  - Close the lid securely.
2. **Setting the Charge:**
  - Adjust the metering assembly to the desired charge weight.
  - Ensure that the settings are locked in place before starting.
3. **Dispensing Powder:**
  - Place your reloading container under the discharge spout.
  - Activate the measure to dispense the powder into the container.
  - Always check the weight of the dispensed powder to ensure accuracy.
4. **Emptying the Hopper:**

- Use the drain attachment to empty the powder hopper without removing it from the stand.
- Ensure that the area is clear of any obstructions before draining.

**5. PostUse Care:**

- Clean the powder measure after each use to prevent powder residue buildup.
- Store the powder measure in a safe, dry place when not in use.

## **Disposal Instructions**

- Dispose of any unused or expired powder in accordance with local regulations for hazardous materials.
- Recycle the powder measure components according to local recycling guidelines.
- Do not dispose of powder in regular household waste.

## **Contact Information for Further Support**

For any safety inquiries or further assistance, please refer to the manufacturer's contact information provided with the product packaging or on the official website.

By following these safety guidelines and instructions, you can ensure a safe and effective experience with your RCBS Quick Change Powder Measure. Always prioritize safety in your reloading practices.
