SILICA GEL SAFETY INSTRUCTION GUIDE

Introduction

Thank you for choosing the LOCKDOWN Silica Gel, 750G. This product is designed to absorb moisture and help protect your valuable firearms from condensation, mildew, and rust. To ensure safe and effective use, please read and follow the safety instructions provided in this guide.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always keep the silica gel out of reach of children and pets.
- Do not ingest the silica gel crystals.
- If crystals are ingested, seek medical attention immediately.
- Regularly check the color of the silica gel crystals to determine saturation.
- Follow the recharging instructions carefully to avoid damage to the product.

Specific Safety Precautions for Use

- **Moisture Absorption:**
 - Place the silica gel in a wellventilated area to maximize moisture absorption.
 - Avoid placing the silica gel in direct contact with water or other liquids.
- **Recharging:**
 - Recharge the silica gel in an oven only as instructed.
 - Do not exceed the recommended temperature during recharging to prevent damage.
 - Allow the silica gel to cool completely before handling after recharging.
- **Storage:**
 - Store the silica gel in a cool, dry place when not in use.
 - Ensure the container is securely closed to prevent moisture exposure.
- **Ventilation:**
 - Use the silica gel in areas with adequate air circulation to enhance its effectiveness.

Instructions for Installation and Usage

1. **Placement:**
 - For optimal performance, place the silica gel in areas that require moisture control, such as vaults or storage areas for firearms.
 - Ensure the silica gel is positioned to allow air circulation around it.
2. **Monitoring:**
 - Check the silica gel regularly for color change. The crystals will change color when fully saturated.
 - Replace or recharge the silica gel as needed based on color indication.
3. **Recharging Process:**

- Preheat the oven to the recommended temperature (typically around 250°F or 120°C).
- Spread the silica gel crystals evenly on a baking sheet.
- Place the baking sheet in the oven for the specified time (usually 12 hours).
- Remove from the oven and allow to cool completely before use.

4. Disposal:

- Dispose of used silica gel crystals according to local regulations.
- Do not dispose of silica gel in the sink or toilet.

Disposal Instructions

- Ensure that the silica gel is completely cooled before disposal.
- Check local waste disposal guidelines for proper disposal methods.
- If the silica gel is no longer effective or has been damaged, dispose of it responsibly.

Contact Information for Further Support

For any questions or concerns regarding the use of this product, please reach out to the manufacturer through the provided contact details on the packaging or product insert. Always refer to the EU Safety Gate platform for updates on recalls and safety alerts related to this product.

By following these safety instructions, you can ensure the effective and safe use of LOCKDOWN Silica Gel, 750G. Thank you for your attention to these important guidelines.
