

AR-15 EXTENDED A2 FLASH SUPPRESSOR 22 CALIBER - BRAVO COMPANY EXTENDED A2 FLASH SUPPRESSOR 22 CALIBER 1/2-28 STEEL BLACK

[Rifle Parts](#) > [Muzzle Devices](#) > [Flash Hiders](#)

Extends 14" Barrels To Minimum Non-NFA Length

When mounted in accordance with BATF specifications for a permanent installation, this A2-pattern flash suppressor will bring a 14½" barrel up to a civilian-legal (non-NFA) 16.1" length. Comes with a pre-drilled hole and pin for permanently pinning to the barrel. Fits standard AR-15/M16 muzzle threads. Installation should be done by a qualified gunsmith familiar with BATF regulations.

AR15 Extended A2 Flash Suppressor Safety Instructions

Introduction

Thank you for choosing the AR15 Extended A2 Flash Suppressor. This product is designed to enhance your firearm's performance while ensuring compliance with safety regulations. Please read this safety instruction guide carefully to ensure safe installation and usage.

General Safety Guidelines

- Always treat the flash suppressor as if it is loaded.
- Ensure that the firearm is pointed in a safe direction at all times.
- Only use the flash suppressor with compatible firearms, specifically those with a 1/228 tpi muzzle thread.
- Keep the flash suppressor and all firearms out of reach of children and unauthorized users.
- Follow all local, state, and federal laws regarding firearm modifications and accessories.
- Be aware of your surroundings and ensure that you are in a safe environment when handling firearms.

Specific Safety Precautions for Use

- **Installation by a Qualified Gunsmith:** Always have the flash suppressor installed by a qualified gunsmith familiar with BATF regulations to ensure proper and safe installation.
- **Permanent Installation:** When mounted according to BATF specifications, ensure that the flash suppressor is permanently pinned to the barrel to avoid accidental removal.
- **Inspection:** Regularly inspect the flash suppressor for any signs of wear or damage. Do not use if damaged.
- **Avoid Modifications:** Do not attempt to modify the flash suppressor in any way. Any alterations may compromise safety and legality.
- **Use Appropriate Ammunition:** Only use ammunition that is compatible with the .22 caliber (.223.224) specification of the flash suppressor.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials, including the flash suppressor, crush washer, retaining pin, and appropriate tools for installation.
- Ensure you are working in a clean, welllit area.

2. Installation Steps:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the existing muzzle device (if applicable) from the barrel.
- Clean the muzzle threads to remove any debris or residue.
- Place the crush washer onto the barrel.
- Screw the flash suppressor onto the barrel, aligning it with the muzzle threads.
- Ensure the flash suppressor is tightened securely but do not overtighten.
- Use the predrilled hole to insert the retaining pin and permanently pin the flash suppressor in place.
- Verify that the installation meets BATF specifications for permanent installations.

3. Usage:

- Before shooting, doublecheck that the flash suppressor is securely attached.
- Follow standard firearm safety practices during shooting.
- After use, clean the flash suppressor according to the firearm manufacturer's recommendations.

Disposal Instructions

- Dispose of the flash suppressor in accordance with local regulations.
- If the flash suppressor is damaged or no longer functional, consult with a qualified gunsmith for proper disposal methods.
- Do not dispose of the flash suppressor in regular household waste.
