

SPARTAN SERIES LASERS - LASERMAX SPARTAN RAIL MOUNTED LASER - RED

[Optics & Mounting](#) > [Electronic Sights](#) > [Laser Sights](#)

New from LaserMax, the Spartan™ series features a revolutionary mounting system that is easily adapted to achieve ideal placement on handgun accessory rails. Dual electronic touch pads are ample in size and have been elongated to ensure effortless activation with all finger lengths and hand sizes. The Spartan laser will be offered in both red and green variants. What is so different about Spartan? The handgun accessory market has become increasingly saturated with laser products that offer no true advancements and little versatility. Spartan is different. Harnessing LaserMax's penchant for innovation, the Spartan features revolutionary Rail Vise Technology™ (patent pending) which eliminates the need for multiple laser housing options or clumsy adapters that limit mounting flexibility and can easily end up lost. The fully adjustable nature of the Spartan ensures that the operator can install the sight in its optimal location for personal comfort and ease of use. Once anchored, the sight maintains precision accuracy over extensive live-fire. Other Features The most versatile and feature-rich rail mounted laser sight ever conceived, Spartan is equipped with LaserMax's patented integral rail feature, enabling attachment of ancillary accessories such as weapon lights or infrared lasers. User programmable for a steady or high-visibility pulsed beam, the Spartan automatically deactivates after 10 minutes to prevent inadvertent power drain. Ambidextrous activation, Rail Vise Positioner, and simplified windage and elevation tuning set Spartan apart from the fray. Spartan lasers will maintain LaserMax's 5 year limited warranty.

Attributes

- Name: [LASERMAX SPARTAN RAIL MOUNTED LASER - RED](#)
- Manufacturer: [LASERMAX](#)
- Product no.: 100018191
- Mfr. No.: SPS-R
- Battery: 1/3N Lithium
- Colour: Black
- Laser Color: Red
- Style: Rail Mount
- Delivery weight: 0.005kg
- Shipping height: 64mm
- Shipping width: 117mm
- Shipping length: 104mm
- UPC: 798816543209

Item details

Made in USA

This product contains a battery.

SPARTAN SERIES LASERS LASERMAX SPARTAN RAIL MOUNTED LASER RED

Introduction

Thank you for choosing the LaserMax Spartan Series Rail Mounted Laser. This guide provides essential safety instructions to ensure the safe use of your laser sight. Please read this manual carefully before installation and use to maximize safety and performance.

General Safety Guidelines

- Always treat your laser sight as if it is loaded, even when not in use.
- Ensure that the laser is pointed in a safe direction at all times.
- Avoid direct eye exposure to the laser beam. The laser can cause eye damage.
- Keep the laser sight out of reach of children and unauthorized users.
- Do not modify or disassemble the laser sight. Unauthorized alterations can lead to malfunctions and safety hazards.
- Regularly inspect the laser sight for any signs of damage or wear. If damaged, discontinue use immediately.
- Use only the recommended battery type (1/3N Lithium) to avoid risks associated with battery failure.

Specific Safety Precautions for Use

- Ensure that the laser is mounted securely on the handgun accessory rail before use.
- Do not activate the laser while handling the firearm unless you are ready to shoot.
- When using the laser, be aware of your surroundings and ensure that no one is in the line of fire.
- If using in lowlight conditions, ensure that the laser beam is visible and does not cause disorientation.
- Avoid using the laser in situations where it may be mistaken for a real firearm or used inappropriately.

Instructions for Installation and Usage

Installation

1. **Unpack the Laser:** Carefully remove the laser sight from its packaging and inspect for any damage.
2. **Identify the Rail:** Locate the accessory rail on your handgun where the laser will be mounted.
3. **Position the Laser:** Align the laser sight with the rail, ensuring that it fits securely.
4. **Secure the Mount:** Use the Rail Vise Technology™ to tighten the laser sight in place. Ensure it is firmly attached without excessive force.
5. **Check Alignment:** Ensure that the laser is properly aligned with the firearm's sights. Adjust as necessary.

Usage

1. **Power On:** Activate the laser using the electronic touch pads. The touch pads are designed for easy activation with all finger lengths and hand sizes.
2. **Adjust Settings:** Customize the laser settings to your preference (steady or pulsed beam).
3. **Safety Check:** Before each use, perform a safety check to ensure the laser is functioning correctly.
4. **Deactivate:** The laser will automatically deactivate after 10 minutes of inactivity to prevent power drain.

Disposal Instructions

- Dispose of the laser sight in accordance with local regulations regarding electronic waste.
- Remove the battery before disposal. Dispose of the battery at a designated recycling facility.

- Do not throw the laser sight or batteries in the regular trash.

Contact Information for Further Support

For any questions or concerns regarding the LaserMax Spartan Rail Mounted Laser, please refer to the contact information provided in the product packaging or visit the official LaserMax website for further assistance.

Thank you for your attention to these safety guidelines. Your safety is our priority, and we appreciate your commitment to responsible use of the LaserMax Spartan Series Laser.
