

# SPARTAN SERIES LASERS - LASERMAX SPARTAN RAIL MOUNTED LASER - GREEN

[Optics & Mounting](#) > [Electronic Sights](#) > [Laser Sights](#)

New from LaserMax, the Spartan™ series features a revolutionary mounting system that is easily adapted to achieve ideal placement on handgun accessory rails. Dual electronic touch pads are ample in size and have been elongated to ensure effortless activation with all finger lengths and hand sizes. The Spartan laser will be offered in both red and green variants. What is so different about Spartan? The handgun accessory market has become increasingly saturated with laser products that offer no true advancements and little versatility. Spartan is different. Harnessing LaserMax's penchant for innovation, the Spartan features revolutionary Rail Vise Technology™ (patent pending) which eliminates the need for multiple laser housing options or clumsy adapters that limit mounting flexibility and can easily end up lost. The fully adjustable nature of the Spartan ensures that the operator can install the sight in its optimal location for personal comfort and ease of use. Once anchored, the sight maintains precision accuracy over extensive live-fire. Other Features The most versatile and feature-rich rail mounted laser sight ever conceived, Spartan is equipped with LaserMax's patented integral rail feature, enabling attachment of ancillary accessories such as weapon lights or infrared lasers. User programmable for a steady or high-visibility pulsed beam, the Spartan automatically deactivates after 10 minutes to prevent inadvertent power drain. Ambidextrous activation, Rail Vise Positioner, and simplified windage and elevation tuning set Spartan apart from the fray. Spartan lasers will maintain LaserMax's 5 year limited warranty.

## Attributes

- Name: [LASERMAX SPARTAN RAIL MOUNTED LASER - GREEN](#)
- Manufacturer: [LASERMAX](#)
- Product no.: 100018192
- Mfr. No.: SPS-G
- Battery: 1/3N Lithium
- Colour: Black
- Laser Color: Green
- Style: Rail Mount
- Delivery weight: 0.045kg
- Shipping height: 102mm
- Shipping width: 64mm
- Shipping length: 114mm
- UPC: 798816543216

## Item details

Made in USA

This product contains a battery.

US export classification: 0A504.f

# Spartan Series Lasers Safety Instruction Guide

## Introduction

Thank you for choosing the LaserMax Spartan™ Rail Mounted Laser. This product is designed to enhance your shooting experience while ensuring safety and compliance with the EU General Product Safety Regulation (GPSR). Please read this safety instruction guide carefully to ensure the safe use of your Spartan laser.

## General Safety Guidelines

- Ensure safe handling and use of the laser by following all instructions provided in this guide.
- Keep the laser out of reach of children and unauthorized users.
- Be aware of your surroundings when using the laser to avoid accidents.
- Regularly check the laser for any signs of damage or malfunction before use.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about recall updates through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Avoid Direct Eye Exposure:** Do not aim the laser at anyone's eyes, as it may cause serious injury.
- **Use in Appropriate Environments:** Only use the laser in safe and controlled environments, away from reflective surfaces.
- **Battery Safety:** Use only the specified 1/3N Lithium battery. Do not mix old and new batteries or different battery types.
- **Do Not Modify:** Do not attempt to modify or disassemble the laser, as this may compromise safety.
- **Proper Activation:** Ensure that the laser is activated correctly using the dual electronic touch pads to prevent accidental activation.

## Instructions for Installation and Usage

### Installation

#### 1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather all necessary tools for installation.

#### 2. Mounting the Laser:

- Locate the accessory rail on your handgun.
- Align the Spartan laser with the rail and slide it into position.
- Use the Rail Vise Technology™ to secure the laser firmly in place.
- Adjust the position as needed for optimal comfort and accessibility.

#### 3. Battery Installation:

- Open the battery compartment as directed in the product manual.
- Insert the 1/3N Lithium battery, ensuring correct polarity.
- Close the compartment securely.

### Usage

#### 1. Activating the Laser:

- Use the dual electronic touch pads to activate the laser.
- Choose between steady or highvisibility pulsed beam settings as per your preference.

## **2. Deactivation:**

- The Spartan laser will automatically deactivate after 10 minutes to prevent power drain.
- To manually deactivate, press the touch pads again.

## **3. Adjusting for Precision:**

- Utilize the simplified windage and elevation tuning features to ensure accuracy.
- Make adjustments as necessary based on your shooting needs.

## **Disposal Instructions**

- Dispose of the laser and its components in accordance with local regulations.
- Do not dispose of batteries in regular household waste. Follow local guidelines for battery disposal or recycling.

## **Contact Information for Further Support**

For any safety inquiries or support, please refer to the manufacturer's contact information provided with your product packaging.

Thank you for your attention to these safety guidelines. Enjoy the enhanced shooting experience with your LaserMax Spartan laser while prioritizing safety and compliance.
