

RIFLE CASE LENGTH/HEADSPACE GAUGES - LYMAN .243 WIN CASE LENGTH/HEADSPACE GAUGE

[Reloading](#) > [Measuring Tools](#) > [Case Gauges & Headspace Tools](#)

To achieve the highest degree of safety and accuracy, Lyman recommends that all bottleneck rifle cases be inspected after resizing to ensure that the proper headspace dimension is maintained. The best way to check this critical dimension is with a Lyman case length/headspace gauge. The reloader simply inserts the case into the gauge to insure that it does not exceed the maximum or fall below the minimum allowable headspace. Caution: Any case found with excessive headspace should be destroyed immediately.

Attributes

- Name: [LYMAN .243 WIN CASE LENGTH/HEADSPACE GAUGE](#)
- Manufacturer: [LYMAN](#)
- Product no.: 100020148
- Mfr. No.: 7832322
- Cartridge: 243 Winchester
- Delivery weight: 0.091kg
- Shipping height: 4mm
- Shipping width: 60mm
- Shipping length: 110mm
- UPC: 011516723222

Safety Instruction Guide for Lyman .243 Win Case Length/Headspace Gauge

Introduction

Thank you for choosing the Lyman .243 Win Case Length/Headspace Gauge. This tool is designed to help ensure the safety and accuracy of your reloading process by allowing you to measure the headspace of your rifle cases. Proper headspace is critical for safe operation and performance. Please read this safety instruction guide carefully to understand how to use this product safely and effectively.

General Safety Guidelines

- Always handle all tools and equipment with care.
- Inspect the gauge and cases for any signs of damage or wear before use.
- Use the gauge only for its intended purpose, which is to measure the headspace of .243 Winchester rifle cases.
- Keep the gauge and cases out of reach of children and unauthorized users.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Inspection:** Always inspect your rifle cases after resizing to ensure they meet the proper headspace specifications.
- **Excessive Headspace:** If a case is found to have excessive headspace, it should be destroyed immediately to prevent potential accidents.
- **Proper Use:** Insert the case fully into the gauge to ensure accurate measurement.
- **Avoid Force:** Do not force the case into the gauge; if it does not fit easily, recheck the case dimensions.
- **Storage:** Store the gauge in a dry, secure location when not in use to prevent damage.

Instructions for Installation and Usage

1. Preparation:

- Ensure you have a clean, flat workspace.
- Gather your .243 Winchester rifle cases and the Lyman gauge.

2. Using the Gauge:

- Take the resized rifle case and hold it at the base.
- Insert the case into the gauge completely.
- Check if the case fits within the gauge's maximum and minimum headspace limits.
- If the case exceeds the maximum or falls below the minimum allowable headspace, mark it for destruction.

3. PostUse:

- After measuring, remove the case from the gauge.
- Clean the gauge with a soft cloth to remove any debris.
- Store the gauge in a safe place, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of any cases that are found to have excessive headspace immediately.
- Follow local regulations for the disposal of firearm components and tools.
- Ensure that destroyed cases are rendered unusable to prevent accidents.

Contact Information for Further Support

For any inquiries regarding the safety and use of the Lyman .243 Win Case Length/Headspace Gauge, please refer to the contact information provided with your product packaging or visit the manufacturer's website for further assistance.

Thank you for prioritizing safety in your reloading practices. Following these guidelines will help ensure a safe and successful experience with your Lyman .243 Win Case Length/Headspace Gauge.
