Strength of a Machined Receiver With Universal Fit of a Forged Lower

Aero Precision's M4E1 Stripped Lower Receiver delivers the strength and unique looks of a billet machined lower, with the lower cost, lighter weight, and easy parts compatibility of a forged lower. The M4E1 starts as an "enhanced" forging from extra-strong 7075 T6 aluminum that is precision machined to final dimensions for compatibility with all standard "mil-spec" AR-15 parts. As a bonus, the good-looking M4E1 has a streamlined profile, without the chunky appearance of many milled lowers. Actually, the Aero Precision M4E1 Stripped Lower Receiver is not quite "stripped." Extra benefits include an integral triggerguard, which creates a more rigid, structurally sound receiver than a standard AR-15 lower, and also eliminates the risk of accidentally breaking off a triggerguard tab when working on the rifle. The enlarged triggerguard opening gives extra clearance so you can easily operate the trigger when wearing gloves. The M4E1 comes with an easy-to-install threaded bolt catch roll pin that eliminates the risk of damaging the lower's finish during installation (OK, you may be able to still do damage, but you'll have to work hard at it!). Other features of the Aero Precision M4E1 stripped lower include: Flared magwell opening facilitates fast, one-shot mag changes Threaded takedown pin detent recess for easy buffer removal without chasing down a flyaway detent! Accepts standard mil-spec AR-15 fire control components, pistol grip, buffer tubes & stocks Hardcoat anodized to resist surface wear, in Matte Black or Cerakote™ Flat Dark Earth The Aero Precision M4E1 Stripped Lower Receiver even has a polymer-tipped tensioning screw nestled in the grip tang that you can adjust for a tight, rattle-free fit with the upper receiver. All the benefits of a custom machined lower without the downside!

Attributes

- Name: [AERO PRECISION M4E1 STRIPPED LOWER RECEIVER FOR AR-15 FDE](#)
- Manufacturer: [AERO PRECISION](#)
- Product no.: 100026148
- Mfr. No.: APAR600002C
- Cartridge: 5.56 mm NATO
- Colour: Flat Dark Earth
- Finish: Anodized
- Style: Enhanced
- Weapon type: AR-15
- Delivery weight: 0.318kg
- Shipping height: 57mm
- Shipping width: 108mm
- Shipping length: 229mm
- UPC: 815421022322

Safety Instruction Guide for AR15 M4E1 Stripped Lower Receiver

Introduction

Thank you for choosing the Aero Precision M4E1 Stripped Lower Receiver. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this guide carefully before installation and usage.

General Safety Guidelines

- Ensure that the product is used in accordance with all local laws and regulations regarding firearms.
- Keep the lower receiver out of reach of children and unauthorized users.
- Always treat every firearm as if it is loaded.
- Inspect the lower receiver for any signs of damage before use.
- Use only compatible parts that meet the "milspec" standards for AR15 components.
- Always wear appropriate safety gear, including eye protection, when handling firearms.
- Store the lower receiver in a safe and secure location when not in use.

Specific Safety Precautions for Use

- **Potential Hazards:**
 - Improper installation may lead to malfunction or injury.
 - Using noncompatible parts can compromise safety and performance.
- **Avoiding Hazards:**
 - Follow all installation instructions carefully.
 - Do not attempt to modify the lower receiver beyond the manufacturer's specifications.
 - Ensure that the triggerguard is properly installed to avoid accidental breakage.
 - Always check that the triggerguard opening allows for proper operation, especially when wearing gloves.

Instructions for Installation and Usage

1. **Preparation:**
 - Gather all necessary tools and components for installation.
 - Ensure that you are working in a clean, dry area free from distractions.
2. **Installation Steps:**
 - Carefully align the lower receiver with the upper receiver.
 - Install the threaded bolt catch roll pin using a suitable tool, ensuring not to damage the finish of the lower receiver.
 - Attach standard milspec AR15 fire control components, including the pistol grip and buffer tube.
 - Adjust the polymertipped tensioning screw for a secure fit.
3. **Usage:**
 - After installation, perform a thorough function check of the firearm.
 - Ensure that all components operate smoothly and that there are no obstructions.
 - Familiarize yourself with the operation of the firearm before use at the range or in any shooting activity.

Disposal Instructions

- Dispose of any packaging materials in accordance with local waste disposal regulations.
- When disposing of the lower receiver, ensure it is rendered inoperable and complies with local laws regarding firearm disposal.

- Do not dispose of the product in regular household waste; instead, follow specific guidelines for firearm disposal in your area.

Contact Information for Further Support

For any questions or concerns regarding the Aero Precision M4E1 Stripped Lower Receiver, please refer to the manufacturer's contact information provided with your product packaging or visit the official website for more details.

Conclusion

By following these safety instructions, you can ensure the safe and effective use of your Aero Precision M4E1 Stripped Lower Receiver. Always prioritize safety when handling firearms and stay informed about best practices. Thank you for choosing Aero Precision.
