Take Your Remington 700 Up a Notch

KINETIC RESEARCH GROUP BRAVO CHASSIS FOR REMINGTON 700 SHORT ACTION The Remington 700 is one of the most customized rifles on the market, and finding the perfect aftermarket component can be a never-ending search. However, the stock is covered, thanks to the Kinetic Research Group Remington 700 Bravo Chassis. The Kinetic Research Group Remington 700 Bravo Chassis features a backbone made from machined aluminum that stretches along the entire length of the stock, giving it rigidity that will ensure the same performance usually found with custom bedding jobs. The rest of the stock is made from reinforced polymer for durability. FEATURES Fits all Remington 700 short actions Available in black and flat dark earth colors Weight: 2.9 pounds M-LOK compatible The Kinetic Research Group Remington 700 Bravo Chassis also features an adjustable cheek riser and length of pull, a built-in thumb shelf, quick-detach sling-swivel mounting points, bipod-attachment stud and is compatible with all AICS-pattern magazines.

Safety Instruction Guide for BRAVO CHASSIS FOR REMINGTON 700 SHORT ACTION

Introduction

Thank you for choosing the Kinetic Research Group Bravo Chassis for your Remington 700 Short Action rifle. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your product. Please read this document carefully before installation and use.

General Safety Guidelines

- Always handle firearms with care and follow all safety protocols.
- Ensure that the chassis is compatible with your specific Remington 700 model before installation.
- Inspect the chassis for any signs of damage or wear before use.
- Keep the chassis and all firearm components out of reach of children and unauthorized users.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Do not exceed the weight limit specified for the chassis.
- Ensure that all accessories and attachments are securely fastened before use.
- Use only AICS pattern magazines as specified for compatibility.
- Avoid using the chassis in extreme weather conditions that may affect its integrity.
- Always wear appropriate safety gear, including eye protection, when using your firearm.

Instructions for Installation and Usage

1. Installation

- Unpack the chassis and check for all components.
- Remove the existing stock from your Remington 700 rifle, following the manufacturer's instructions.
- Align the action of the rifle with the Bravo Chassis and secure it using the provided screws.
- Ensure that the chassis is firmly attached and that there are no loose components.

2. Adjustments

- Adjust the cheek riser and length of pull to fit your personal comfort.
- Ensure that the thumb shelf is positioned correctly for optimal grip.

3. Usage

- Always ensure the rifle is unloaded before making any adjustments.
- When attaching accessories, ensure they are compatible and securely mounted.
- Regularly inspect the chassis and all components for wear and tear.

Disposal Instructions

- Dispose of the chassis in accordance with local regulations regarding electronic waste and materials.
- Do not dispose of the product in regular household waste.
- Contact your local waste management facility for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the safety and use of your Kinetic Research Group Bravo Chassis, please refer to the contact information provided by the retailer or manufacturer.

Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation. Enjoy the enhanced performance and customization that the Bravo Chassis brings to your Remington 700 Short Action rifle.
