## Fully Adjustable - With a Capital "A" - For Fine-Tuned Precision

The Geissele Super 700 is a revolutionary drop-in trigger upgrade for the Remington 700 series rifle that provides the shooter with an unprecedented level of adjustability. Setting the Geissele Super 700 trigger apart is the capacity to be configured as a two stage-trigger by the individual user. Even better, Geissele designed the Super 700 so you can select the distribution of the total pull weight between the first and second stages. You can set up the pull exactly the way you want it...and change it any time your needs change. The Super 700 is based on the trigger Geissele developed for the U.S. Military's Mk 13 sniper rifle system, so reliability and consistency are "baked" right into the design. And so is safety: when the Super 700's safety lever is flipped to "safe," three key trigger components are locked down: the trigger itself, the internal mechanism, and the transfer bar. Can be set for a two-stage pull Total pull weight can be adjusted from 12 oz. to 3.5 lbs. - comes from factory set at 2.5 lbs. Two separate sears for two-stage operation (not a "fake" first stage just from spring pressure) Overtravel is adjustable, too Triple-redundant safety mechanism Machined, honed & polished from aerospace-grade alloys The super 700 trigger bow is machined from a high-strength, corrosion-resistant copper-aluminum alloy that holds exceptionally tight tolerances. The sear components have Geissele's Nanoweapon coating, which prevents corrosion, is highly wear-resistant, and naturally extremely slick. The Geissele Super 700 takes America's most popular bolt action rifle and makes it even more adaptable to your shooting needs. Whether you use your 700 for hunting, competition, law enforcement, or benchrest shooting, you'll discover why the folks at Geissele are calling this trigger the "Smile Maker"!

## Attributes

- Name: [SUPER 700 TRIGGER 2 STAGE](#)
- Manufacturer: [GEISSELE AUTOMATICS](#)
- Product no.: 100026692
- Mfr. No.: 05-706

# Safety Instruction Guide for Geissele Super 700 Trigger

## Introduction

Thank you for choosing the Geissele Super 700 Trigger. This revolutionary dropin trigger upgrade is designed for the Remington 700 series rifle, enhancing your shooting experience through adjustable settings. To ensure your safety and the optimal performance of the product, please read this safety instruction guide carefully.

## General Safety Guidelines

- Always treat your firearm as if it is loaded.
- Ensure that the trigger is installed correctly before use.
- Regularly inspect the trigger for wear and damage.
- Follow all local laws and regulations regarding firearms and their accessories.
- Store your firearm and trigger in a secure location, away from children and unauthorized users.
- Be aware of your surroundings when handling firearms.
- Always use appropriate safety gear, including eye and ear protection, when shooting.

## Specific Safety Precautions for Use

- **Trigger Adjustment:**
  - Adjust the pull weight only when the firearm is unloaded and pointed in a safe direction.
  - Make adjustments gradually, testing the trigger after each change to ensure it meets your preferences.
- **TwoStage Operation:**
  - Familiarize yourself with the twostage trigger mechanism before use.
  - Ensure that you understand the difference between the first and second stages to avoid accidental discharges.
- **Safety Mechanism:**
  - Always engage the safety lever when the firearm is not in use.
  - Verify that the safety mechanism is functioning correctly before each use.
- **Corrosion Resistance:**
  - Avoid exposing the trigger to harsh chemicals or environments that could cause corrosion.
- **AerospaceGrade Alloys:**
  - Handle the trigger with care to maintain the integrity of the aerospacegrade materials.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove the existing trigger according to the manufacturer's instructions.
- Install the Geissele Super 700 Trigger by following these steps:

- Align the trigger with the receiver.
- Securely fasten the trigger using the provided screws.
- Ensure that all components are properly seated and tightened.

## **2. Usage:**

- Familiarize yourself with the trigger's operation before shooting.
- Practice in a controlled environment to understand the trigger's feel and responsiveness.
- Adjust the pull weight as desired, ensuring it is within the recommended range of 12 oz. to 3.5 lbs.
- Regularly test the trigger for functionality and safety.

## **Disposal Instructions**

- Dispose of the Geissele Super 700 Trigger responsibly in accordance with local regulations.
- Do not throw the trigger in regular household waste.
- Contact a local waste management facility for guidance on the proper disposal of firearm accessories.

## **Contact Information for Further Support**

For questions or concerns regarding the Geissele Super 700 Trigger, please refer to the manufacturer's website or customer service resources.

## **Conclusion**

Your safety is paramount when using the Geissele Super 700 Trigger. By following these guidelines and precautions, you can enjoy enhanced performance and reliability from your Remington 700 series rifle. Stay safe, and happy shooting!
