

LITTLE CROW GUNWORKS WORLDS FINEST TRIMMER - LITTLE CROW GUNWORKS. 7MM LRM TRIMMER

[Reloading](#) > [Case Preparation](#) > [Case Trimming](#) > [Case Trimmers](#)

The “World’s Finest Trimmer” lets you trim more cases in less time - and with less effort - using your electric drill as a power source. The adjustable cutter rotates and shortens the case until the shoulder contacts the close-fitting stop that is mounted in a bearing to prevent it from rotating and marring the case. Simply pick up a case and push it against the cutter until the excess brass is removed. Once you have the trimmer set up and get a rhythm going, you can easily maintain a pace of 8-10 cases per minute – a joy to use! Durable aluminum and stainless steel construction, with a high-speed steel cutter for years of reliable service. Units only trim cartridge cases to length. They do not chamfer or deburr the case mouth during trimming. These don't come with a dowel.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when operating the trimmer.
- Ensure the trimmer is securely attached to your electric drill before use.
- Do not exceed the recommended trimming speed of 810 cases per minute.
- Keep hands and other body parts away from the cutter while in operation to prevent injury.
- Always disconnect the trimmer from the drill when not in use or when making adjustments.
- Do not use the trimmer for any purpose other than trimming cartridge cases.
- Inspect the trimmer for any damage before each use. Do not use if damaged.
- Store the trimmer in a dry place, away from children and pets.

Instructions for Installation and Usage

1. Setup:

- Attach the trimmer securely to your electric drill according to the manufacturer's instructions.
- Ensure that the cutter is properly aligned and that the stop is in place to prevent rotation.

2. Using the Trimmer:

- Select a cartridge case to be trimmed.
- Hold the case firmly and push it against the cutter until the excess brass is removed.
- Maintain a steady rhythm to achieve a trimming pace of 810 cases per minute.
- Do not force the case against the cutter; let the cutter do the work.

3. PostUse:

- After trimming, clean the trimmer and store it properly.
- Disconnect the trimmer from the drill when finished.

Disposal Instructions

- Dispose of the trimmer in accordance with local regulations for electronic waste.
- Do not dispose of the trimmer in regular household waste.
- Remove any batteries or power sources before disposal, if applicable.
